## Chairman's Statement

#### Chairman's Statement

#### Distinguished Shareholders,

I am delighted to welcome you to the 17<sup>th</sup> Annual General Meeting of your company, the fifth in the series after the consolidation exercise in the insurance industry. We have indeed come a long way and as such must remain eternally grateful to God and you shareholders for the modest results we have continued to achieve.

In spite of the difficult business terrain characterized by government's tight monetary policy and the resultant high interest rates, epileptic infrastructure especially power, the results for the 2011 financial year have once again indicated a positive trend- that your company has remained profitable.

#### GLOBAL OUTLOOK:

The effects of the global economic meltdown which was triggered in 2008 through a mortgage crisis in the United States is still being felt as recovery has been slower than envisaged.

prices to etch further towards the peak attained in 2008 has remained a major impediment to economic growth. With government at various levels continually dependent on the dwindling revenue from this source and government being the largest single patron of insurance services, the sector continued to feel the impact.

2011 was a political transition year as general elections were held to fill elective positions at all Federal & State government levels. This witnessed a huge political expenditure to the detriment of other sectors of the economy.

With the government especially at the federal level having significantly settled down and a transformational agenda outlined, it is expected that improvement would be recorded on the nation's GDP which has hovered around an annual growth of 7% in recent times.

The Exchange Rate of the local currency, Naira, continued to receive the heat as it depreciated to its lowest ebb ever at N157

The international stock markets are yet to come anywhere near their pre-melt down averages while crude oil prices, a major determinant of the direction of the Nigerian economy continued to hover around the USD\$100 mark. This is way below the USD\$147 per barrel attained in July 2008, though an improvement over the all-time low of USD\$40 per barrel towards the end of that year.

In 2011, a major member of the European Union, Greece went through an economic crisis that unleashed social unrest and threatened both Europe's recovery and the future of the euro. The Greek government was kept afloat by its fellow Euro-zone countries, as austerity measures demanded by France and Germany in return for two massive bailout packages plunged the country into a recession of near-Great Depression dimensions.

However, Nigeria recorded an unprecedented N10trillion Gross Domestic Product (GDP) in 2011, thus making the country the third fastest growing economy in the world behind China and Mongolia. The country's income per capita also grew from \$1,200 to \$1,400.

#### **OPERATING ENVIRONMENT:**

The Nigerian economy has remained largely dependent on crude oil as the major revenue earner; hence the failure of oil

per USD in the local market due to demand pressure from importers.

Not much progress was recorded in the power sector during the year 2011 as efforts were still geared towards building generation as well as transmission infrastructure. Total output therefore continues to fluctuate between 3000 to 4000 Megawatts, leaving companies, including yours with huge expenditure on internal power generation.

#### THE NIGERIAN INSURANCE INDUSTRY:

In 2011, a number of commendable initiatives by the industry regulator – the National Insurance Commission (NAICOM) became clearer. Key of these is the Market Development and Restructuring Initiative, MDRI, where efforts to ensure patronage of five compulsory classes of insurance gathered momentum. The Commission commenced in earnest, public enlightenment campaigns as well as law enforcement agent-backed drive to enforce compliance by members of the public of the five classes that are very prominent and capable of generating about 55 per cent of the industry premium income.

The Nigerian Insurance market has continued to reel under the effects of the credit crunch in the banking industry as the second

#### Chairman's Statement

round of reforms in the sector led to the draught of credit to the real sector and the middle class thus eroding their assets acquisition capabilities. A considerable number of companies in the industry have thus been unable to generate gross revenues up to their operating capital.

The adoption of the IFRS – International Financial Reporting Standards by the industry regulator has further raised the bar in transparency of our financials. We are happy to report full compliance in line with standards set by NAICOM.

#### **BOARD CHANGES:**

Two directors of the company, Nze (Dr.) Clement Maduako, a non- executive director and Obashola Alo, executive director, resigned their appointments from the board in 2011. A non executive director, Mrs Ngozi Nkem has joined the board and her appointment is being put forward for confirmation in the course of proceedings during this meeting.

#### COMPANY PERFORMANCE:

Notwithstanding the daunting challenges posed by the global economy and the harsh operating environment mentioned earlier, your company was able to sustain its yearly growth record in key performance metrics.

Your company grew its Gross Premium Income from N2.8B in 2010 to N3.8B during the Financial Year Ended 31<sup>st</sup> December 2011 which represents a remarkable increase of N1B or 36%. The Profit After Tax of N271M a 28% increase from the 2010 figure of N211M was achieved, while the Shareholders Fund was also grown from N4.1B in 2010 to N4.2B in 2011.

We attribute the success recorded to the unflinching support of our customers, and the unwavering determination and commitment of management and staff.

#### **DIVIDEND**

Based on the above result, the board is recommending for your approval, a dividend per share of 2kobo totalling N120million. If

approved, the dividend is to be paid to members whose names appear in the register by close of business on 13<sup>th</sup> June 2012. Shareholders who have completed the e-mandate forms shall receive their payments directly into their bank accounts shortly while others will be posted accordingly.

#### APPRECIATION:

The continued profitability of your company in spite of the difficult operating terrain has been made possible by all our stakeholders – shareholders, fellow board members, management and staff, insurance brokers and agents and all our loyal customers – THANK YOU.

We shall continue to count on you for future progress.

Ugo (Dr.) Obi Ralph Ekezie Chairman, Board of Directors

June, 2012.

Your company grew its Gross Premium Income from N2.8B in 2010 to N3.8B during the Financial Year Ended 31<sup>st</sup> December 2011 which represents a remarkable increase of N1B or 36%.

## ■■ Our attitude and resolve remain strong and I am sure that with your continued support, we shall achieve our dream. ■■

Distinguished Shareholders, Members of the Board of Directors, Ladies and Gentlemen,

I wish to join the Chairman in welcoming you all to our 17<sup>th</sup> Annual General Meeting. We have had a remarkable experience since our last meeting and I would like to appreciate your support for the successes recorded by the company in the last one year.

Permit me to also use this opportunity to share with you, distinguished shareholders, the following specific developments with possible impact on the future of your company:

#### **INDUSTRY OVERVIEW**

NAICOM has increased the tempo of its regulatory oversight since the start of Year 2012. As opposed to the yearly release of operational guidelines the regulator has introduced the Thematic Guidelines approach using the 2011 guidelines as the base. It is gratifying to note that your Company has been proactive in its regulatory reporting obligations through the establishment of a Legal & Compliance Unit which in conjunction with other departments has ensured that the company fully complies with all regulatory reporting requirements. Little wonder therefore that CHI was among the first few companies to obtain approval of its accounts from NAICOM; a yearly development which has helped us to hold the 2012 AGM before the end of the first half of the year. We shall endeavor to improve on our current achievement in subsequent editions.

## INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

IFRS is a globally accepted financial reporting standards which Nigeria adopted in 2010 with commencement date for companies quoted on the floor of the Nigerian Stock Exchange being 2012. These standards will replace the Statement of Accounting Standards (SAS) issued by the Financial Reporting

Council of Nigeria (FRCN). The first IFRS full financial statements will be for the period ending December 31, 2012 with 2011 as comparative year. We are pleased to report that we are on course having prepared, obtained approval and published Q1, 2012 results in these Standards.

## NIGERIAN OIL & GAS LOCAL CONTENT DEVELOPMENT ACT 2010

The opportunities provided the industry to grow its income through the enactment of this Act are being realized albeit gradually. Thanks to NAICOM who has not only issued necessary guidelines to help operators in the practice of this class of business but has ensured that no risk is placed offshore without first satisfying the local market. The industry is however challenged at the moment by its limited financial capacity to cope with the huge investments in this sector. This has led to the formation of various underwriting pools, arrangements which your company participates in to enhance its acceptances and manage its exposures.

## MARKET DEVELOPMENT AND RESTRUCTURING INITIATIVE (MDRI)

During the 2011 Financial Year, NAICOM intensified the implementation of its guidelines for the enforcement of compulsory insurances for greater insurance penetration in the country. Underwriters have been supportive through advertising and road shows with a view of sensitizing Nigerians on the benefits of insurance. Result of these efforts is expected to pick up eventually and impact on the bottom line with increased patronage of the sector.

#### NEW HEAD OFFICE COMPLEX

Distinguished Shareholders, I am delighted to inform you that the recent relocation of our head office from a leased property in Victoria Island to the company-owned property on Ikorodu Road Lagos has greatly improved staff productivity through reduction in man hours spent in traffic and better and more spacious working environment fitted with modern day facilities.

The design of the building and its vantage location have improved our market visibility and branding and I am sure these would translate into increased businesses in the immediate future. May I at this juncture specially acknowledge the role played by the Board of Directors, Management and Staff, who worked tirelessly and made great sacrifices to ensure that the building was renovated within time schedule and our relocation a reality. Our ultimate goal is to develop the complex even further in order to cope with our growing space requirement and this goal can only be realized with your unalloyed support and commitment.

#### **CREDIT CONTROL DRIVE**

Your company has reinvigorated its credit control drive in line with the resolve to ensure significant recovery of outstanding premium while ensuring that age of debts for new transactions is reduced to the barest minimum, in some cases not exceeding three months.

#### STAFF WELFARE & TRAINING

The Company has continued to recognize the importance of its staff and their contributions to its growth and development. We are not relenting in the training of staff to improve on their competencies. A comprehensive learning & development programme designed to equip our technical staff with modern skills is run yearly in partnership with external consultants. The number of participants was 34 in the 2011 edition which shall increase in subsequent years.

#### **TECHNOLOGY**

The company has continued to leverage on its robust ICT platform to maintain its market share and deliver cutting edge services to its customers. Since our last meeting we have upgraded our ICT platform to the latest version of Global Insurance Business Solutions Software and improved upon the

trailblazing motor insurance transaction platform for the sale of motor insurance policy online which your company pioneered in the industry. Currently we are improving on our online payment platform for all classes of insurance in addition to setting up a functional e-Business Unit to grow our share of the retail market.

#### INVESTMENT IN SUBSIDIARIES

During the year under review, we expanded the scope of operations of Grand Treasurers Limited by recruiting necessary staff that can independently handle its activities. We are confident that the subsidiary exhibits a huge potential and are constantly invigorating its operations to maximize returns in the leasing sub-sector of the financial industry. It is expected that these efforts would start to impact positively on the bottom line of the subsidiary as from this financial year.

CHI Capital Limited, which is the investment vehicle for Grand Treasurers Limited has been involved in the provision of vehicle tracking services for your company – a value added service that has continued to grow the motor insurance portfolio. The Real Estate arm of her operations will be fully developed in the near future.

#### CHALLENGES AND PROSPECTS

The industry has no doubt made remarkable progress after the recapitalization exercise of 2007. Further consolidation which is ongoing in the banking sector is once again a wake-up call to players in our sector that future mergers and acquisition may not be too far away. As we strive to continually ensure adequate returns on investment for our stakeholders, industry challenges such as inefficiencies in underwriting and pricing models due largely to keen competition, existence of alternative markets for motor and marine cargo insurances and lack of cooperation among operators and trade associations might frustrate the realization of our desired results. The increasing wave of

insecurity to life and property after the 2011 general elections has continued to paralyze economic activities in some parts of the country. This has led to closure and relocation of many companies with attendant negative impact on economic activities. It is gladdening however to note that in spite of these challenges opportunities still abound in our dear country and your company is doing everything possible to take full advantage thereof.

With the recent upbeat in the tempo of activities of the Asset Management Corporation of Nigeria, and the conclusion of further consolidation in the banking industry, we look forward to a reinvigorated banking sector that would resume lending to the real sector of the economy. There are indications that some marginal gains would be recorded on investments in the Nigerian Stock Exchange in 2012 as investor confidence gradually returns to that sector, although this is expected to be gradual. Also, the enforcement drive by the industry regulator of the compulsory insurances is expected to grow premium. New opportunities emerging from the transformation agenda of the Federal Government especially in Agriculture would be explored by your company to grow the bottom line. We shall continue to be proactive in responding to changes, not only in the insurance industry but the economy at large.

#### CONCLUSION

We remain committed to the building of Consolidated Hallmark Insurance Plc into a world class company. Our attitude and resolve remain strong and I am sure that with your continued support, we shall achieve our dream. I thank all our shareholders for their faith in us, our numerous customers and in particular Insurance Brokers and Agents for their continued patronage, our Reinsurers for their most valued partnership and protection, NAICOM for their friendly regulation and my colleagues at Management and staff for their dedication, loyalty and commitment. Without the support from all of you, our achievement of continued profitability exemplified in payment of dividend to shareholders, three years out of five post-consolidation would not have been possible.

Finally, I thank members of the Board of Directors for their painstaking efforts and contributions to the success story of the Company and wish us all fruitful deliberations.

Thank you

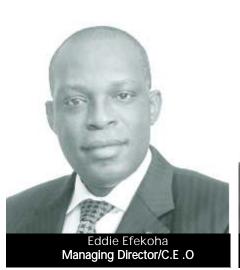

The Company has continued to recognize the importance of its staff and their contributions to its growth and development. We are not relenting in the training of staff to improve on their competencies. A comprehensive learning & development programme designed to equip our technical staff with modern skills is run yearly in partnership with external consultants.

#### **PKF Professional Services**

REPORT OF THE AUDITORS TO THE MEMBERS OF CONSOLIDATED HALLMARK INSURANCE PLC

Chartered Accountants & business advisers

We have audited the accompanying financial statements of Consolidated Hallmark Insurance PIc, set out on pages 28 to 57 which comprises the balance sheet as at 31 December 2011, the profit and loss account, statement of cash flows, statement of value added for the year then ended and a summary of significant accounting policies, and other explanatory information.

#### Directors' Responsibility for the Financial Statements

The Directors are responsible for the preparation and fair presentation of these financial statements in accordance with the Companies and Allied Matters Act, CAP C20, LFN 2004, and for such internal control as the Directors determines are necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Nigerian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statement present fairly, in all material respects the financial position of Consolidated Hallmark Insurance PIc as at 31 December 2011, and of its financial performance and cash flows for the year then ended. The Company has kept proper books of account, which are in agreement with the balance sheet and income statement in the manner required by the Company and Allied Matters Act, CAP C20, LFN 2004, the applicable provisions of the Insurance Act CAP 117 LNP 2004 and relevant guidelines issued by National Insurance Commission and in accordance with the Statements of Accounting Standards issued by the Financial Reporting Council of Nigeria.

For the year ended 31 December, 2011

The following are the significant accounting policies adopted by the Company in the preparation of its financial statements. These policies have been constantly applied to all years presentations, unless otherwise stated.

#### 1. Basis of accounting

- ▶ The financial statements are prepared in compliance with Statements of Accounting Standards issued by the Financial Reporting Council of Nigeria. The Companies and Allied Matters Act (CAMA) CAP C20 LFN 2004. The Insurance Act and Regulation 2003 and its interpretation issued by the National Insurance Commission in its insurance industry policy guidelines.
- ▶ The financial statements are presented in the functional currency, Nigeria naira and prepared under the historical cost convention as modified by the revaluation of certain property, plant and equipment.
- ▶ The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period
- ▶ The annual accounting basis is used to determine the underwriting result of each class of insurance business written.

#### 2. Consolidation

The Group financial statements comprises the financial statements of the company and its subsidiary, CHI Capital Limited, all made up to 31 December, each year. All intercompany transactions, balances, unrealized surplus and deficit on transactions between group companies have been eliminated. The accounting policies of the subsidiary are consistent with the accounting policies adopted by the group.

#### B. Property, plant and equipment

Property, plant and equipment are stated at the cost, less depreciation on a straight-line basis over the estimated useful life of the assets, taking into consideration any residual value, excluding the costs of day-to-day servicing.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is derecognised.

Assets on lease are accounted for in accordance with the substance and financial reality of the transaction. Depreciation is provided to write off the related assets over the period of the lease. Income from assets on lease is accrued evenly over the respective period of the leases.

#### 3. Depreciation of property, plant and equipment

Depreciation is calculated to write off the cost of property, plant & equipment during their expected useful lives on a straight-line basis. In the case of revalued property, plant & equipment, depreciation is calculated by reference to the enhanced value of the assets concerned. The principal annual rates of depreciation, which are consistent with those of previous years, are:

Buildings - 2%
Furniture and Fittings - 15%
Computers - 15%
Motor Vehicles - 20%
Office Equipment - 15%

Depreciation is not calculated on property, plant & equipment until they are brought into use. Gains or losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

#### 4. Provision for unexpired risks

Reserves for unexpired risk are those proportions of the premium written in a year, that relate to the period of risk from January in the following accounting year to the subsequent date of expiry of the policies and have been computed in accordance with Section 20(1) (a) of the Insurance Act 2003, which stipulates that provision for the reserve for unexpired risks is calculated on a time apportionment basis in respect of the risks accepted during the year.

For the year ended 31 December, 2011

#### 5. Provision for outstanding claims/incurred but not yet reported

Full provision is made for the estimated amount of outstanding claims notified but not settled at the date of the balance sheet, less reinsurance recoveries, using the best information available at that time. Provision is also made for the cost of claims incurred but not reported (IBNR) until after the balance sheet date on the basis of claims notified but not settled in compliance with the provisions of Section 20(1) (b) of the Insurance Act 2003. Similarly, provisions are made for "unallocated claims expenses" being the estimated administrative expenses that will be incurred after the balance sheet date in settling all claims outstanding as at the date, including IBNR.

Differences between the provisions for outstanding claims at a balance sheet date and the subsequent settlement are included in the revenue Account of the following year.

#### 6. Contingency reserve

Contingency reserve has been calculated at 3% of the total premium or 20% of the Net Profit before tax which ever is greater in accordance with Section 21(2) of the Insurance Act 2003 until the accumulated reserve reaches the amount of the minimum paid-up capital or 50 per centum of the net premiums (which ever is greater).

#### 7. Foreign currencies translation

The financial statements are presented in Naira, which is the Company's functional and presentation currency. Income and expenses denominated in foreign currencies are translated to the Naira at the rates of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currency balances are converted to the Naira at the applicable rates of exchange ruling at the balance sheet date. Any profits or loss arising on the conversion of foreign currencies is included in the profit and loss account.

#### 8. Investments

The company categorizes its investments into the following categories: short term investments and long-term investments.

#### I) Short term investments

Short-term investments are investments held temporarily in place of cash and which can be converted into cash when current financing needs make such conversion desirable. In addition, management intends to hold such investments for not more than one year.

#### Funds Under Management

Funds Under Management shall be the total value of assets that the company shall invest with a portfolio management company, a mutual fund or an hedge fund to be managed for the benefit of the company. This shall be treated on a portfolio basis as an investment.

An increase in carrying amount arising from the revaluation of Fund Under Management would be credited to income. Also, a decline in value of Fund Under Management, the carrying amount of the investment would be written down to recognize the loss.

When an investment has been written down as stated above, the new carrying amount is deemed to be the new basis for subsequent accounting purposes

#### ii) Long term investments

Investments intended to be held for over a period exceeding one year, which are either held to maturity or available for sale in response to needs for liquidity or changes in interest rates, exchange rates or equity prices are classified as long term investments.

Long-term investments are stated at cost or revalued amount on Balance Sheet date while short term investments are stated at cost less provision for diminution in values.

No provision is made for diminution in the market value of government securities as it is the Company's policy to hold such Securities until maturity.

Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are transferred to investment properties revaluation reserve.

#### 11. Investment In leases

When assets are held subject to a finance lease, the transactions are recognised in the books of the Company at the net investment in the lease. Net investment in the lease is the gross investment in the lease discounted at the interest rate implicit in the lease. The gross investment is the sum of the minimum lease payments plus any residual value payable on the lease. The discount on lease is defined as the difference between the gross investment and the present value of the asset under the lease.

The discount is recognised as unearned in the books of the Company and amortised to income as they are earned over the life of the lease at a basis that reflects a constant rate of return on the Company's net investment in the lease.

Finance leases are treated as risk assets and the net investment in the lease are subject to the provision policy in line with premium debtor's provision policy.

#### 12. Investment income

Interest and rental income are shown gross and are accounted for on accrual basis. Dividends are accounted for on the basis of the amounts actually received during the year.

#### 13. Premium debtors

Premiums are stated at cost after writing off bad debts and deducting provision for other specific debts considered to be doubtful of recovery. An allowance for specific debts is established when there is objective evidence that the company will not be able to collect all the amounts due according to the terms of the receivables.

In accordance with the National Insurance Commission (NAICOM) guidelines, allowances are made for potential bad debts as follows:

Period outstanding % Allowance required Up to 3 months Nil 3 – 6 months 50% Above 6 months 100%
