DIRECTORS RESPONSIBILITIES

The Company's Directors are responsible, in accordance with the provisions of Section 334 of the Companies and Allied Matters Act Cap C20 LFN 2004, for the preparation of Financial Statements which give a true and fair view of the state of affairs of the Company as at the end of each financial year and of its profit and loss and cash flows for the year and that the statements comply with the International Financial Reporting Standard, Insurance

Act 2003 and Companies and Allied Matters Act Cap C20 LFN 2004. In doing so they ensure that:

- a. Proper accounting records are maintained.
- b. Adequate internal control procedures are established which as far as is reasonably possible, safeguard the assets, prevent and detect fraud and other irregularity.
- c. Applicable accounting standards are followed.
- d. Suitable accounting policies are consistently applied.
- e. Judgments and estimates made are reasonable and prudent and consistently applied.

f. The going concern basis is used unless it is inappropriate to presume that the Company shall continue in Business.

FIXED ASSETS

Movements in fixed assets during the period are shown in note eleven on pages 75 to 78 In the opinion of the Directors the market value of the Company's fixed assets is not lower than the value shown in the Financial Statement.

CORPORATE GOVERNANCE REPORT

INTRODUCTION

Consolidated Hallmark Insurance Plc ('CHI') is unswerving in its adherence to the principles of corporate governance as enshrined in the regulators' codes. CHI recognizes the benefits that strict adherence to these codes afford its investors, the Company, the insurance industry and the financial market in Nigeria and beyond. The Company has thus, not reneged in its commitment and efforts toward ensuring full compliance with the various and similar standards required of it by its regulators.

THE BOARD

The Company's Board of Directors is made of seasoned and accomplished professionals in the petroleum, insurance, accounting and banking industry. This assemblage of well bred and accomplished professionals with vast experience who are very conscious of their various professional ethics and the regulated nature of the insurance business have over the years brought these experiences to bear by their robust, dispassionate and consistent review of the Company's policies.

COMPOSITION OF THE BOARD

The Board of CHI is made up of nine Directors. The Board is composed majorly of Non-Executive Directors which makes it independent of Management and has thus, enabled the Board to carry out its oversight function in an objective and effective manner.

In tandem with international best practice, the positions of the Chairman and the Chief Executive Officer/Managing Director are occupied by two different persons.

Non-Executive Director (Appointed 1st April 2016)
Non-Executive Director (Resigned 24th April 2019)
Managing Director/Chief Executive Officer
Non-Executive Director (Appointed 8th Dec 2011)
Non-Executive Director (Resigned 24th April 2019)
Non-Executive Director (Appointed 1st April 2016)
Non-Executive Director (Appointed 1st April 2016)
Non-Executive Director (Resigned 24th April 2019)
Independent Non-Executive Director (Appointed 26th Oct
2016)
Non-Executive Director (Appointed 25th April 2019)
Executive Director (Appointed 1st April 2016)
Executive Director (Appointed 27 July 2016)

The details of the composition of the Board as at 31 December 2019 are stated below:

DUTIES OF THE BOARD

- 1. Provides strategic direction for the Company.
- 2. Approves budget of the Company.
- 3. Oversees the effective performance of Management in running the affairs of the Company.
- 4. Ensures human and financial resources are effectively deployed.
- 5. Establishes adequate system of internal control procedures that ensure the safeguard of assets and assist in the prevention and detection of fraud and other irregularities
- 6. Following applicable accounting standards.
- 7. Consistently applying suitable accounting policies.
- 8. Ensures compliance with the code of corporate governance and with other regulatory laws and guidelines.
- 9. Performance appraisal of Board Members and senior executives.
- 10. Approves the policies surrounding the Company's communication and information dissemination system.

MEETINGS OF THE BOARD

The Board meets regularly and ensures that the minimum standards in terms of attendance and frequency of meetings are complied with. The Board met eight times in 2019 thus it ensured that the requirement of meeting at least once in every quarter was surpassed. Required notices and meeting papers were sent in advance before the meeting to all the Directors while the Nigerian Stock Exchange was equally given prior notice before every meeting of the Board.

BOARD COMMITTEES

To assist in the execution of its responsibilities, the Board discharges its oversight functions through various Committees put in place. The Committees are set up in line with statutory and regulatory requirements and are consistent with global best practices. Membership of the Committees of the Board is intended to make the best use of the skills and experience of non-Executive Directors in particular.

The Committees have well defined terms of reference which set out their roles, responsibilities, functions, scope of authority and procedure for reporting to the Board. The Committees consider matters that fall within their purview to ensure that decisions reached are as objective as possible.

Set out below are the various Committees and the terms of reference of each Board Committee:

- 1. Board Finance Investment & General Purpose Committee (FIGPC)
- 2. Board Audit, Risk Management & Compliance Committee (ARMCC)
- 3. Board Establishment & Governance Committee (EGC)

1. BOARD FINANCE, INVESTMENT & GENERAL PURPOSE COMMITTEE (FIGPC)

The Board Finance, Investment & General Purpose Committee is responsible to the Board of Directors and it is mandated to oversee the Company's financial affairs on behalf of the Board and to give initial consideration to and advice on any other Board business of particular importance or complexity.

RESPONSIBILITIES

- To review and make recommendation to the Board on the annual budget and audited accounts of the Company.
- To recommend strategic initiatives to the Board.
- To review quarterly and annual performance against budget
- To consider and approve extra budgetary expenditure.
- To give anticipatory approvals on behalf of the Board and ensure that such approvals are ratified by the Board at next sitting.
- To present the investment policies and investment plans to the Board annually for approval and ensure that investments are made in accordance with the policies.
- To consider and advise the Board on strategic policies for the Company's investment programmes.
- To decide on the appropriateness of all investments within the Company that affects the Company's clients, lines of business, management and staff and also IT systems.
- To ensure that guidelines for investment comply with legal and regulatory requirements and that investment activities reflect the goals and strategy of the Company.
- To ensure that the assets of the Company are protected and effective control measures are put in place for sufficient internal checks and balances.
- To present the investment policies and investment plans to the Board annually for approval and ensure that investments are made in accordance with the policies.
- To consider and advise the Board on strategic policies for the Company's investment programmes.
- To approve all investment in excess of the limits delegated to Management Investment Committee.
- To approve provisions for non-performing investments based on presentation by the CEO and in line with existing regulations.
- To review Management Investment Committee's authority level as and when deemed necessary and recommend new levels to the Board for consideration.
- To conduct quarterly review of investments granted by the Company to ensure compliance with the Company's internal control systems and investment approval procedures.
- To notify all Directors related investment to the Board.
- To ensure that the investment assets of the company are protected and effective control measures are put in place for sufficient internal checks and balances.
- To monitor and notify the top debtors to the attention of the Board
- Any other matter that is not specifically covered by any other Committee.
- Any other matter as may be delegated to the Committee by the Board from time to time.

MEETINGS OF THE COMMITTEE

The Committee meets as often as it considers necessary, but not less than once per quarter. The Committee met six times during the period under review.

2. BOARD AUDIT, RISK MANAGEMENT & COMPLIANCE COMMITTEE (ARMCC)

PURPOSE

The primary objective of the Audit & Risk Management Committee of the Board is to monitor and provide effective supervision of the Management's Financial Reporting Process with a view to ensuring accurate, timely and proper disclosures, transparency, integrity and quality of financial reporting.

The Audit Committee also oversees the work carried out in the financial reporting process by Management, Internal Auditor and the External Auditor. The Audit Committee has the power to investigate any activity within its terms of reference, seek information from any employee when necessary and obtain external legal or professional advice from experts when necessary.

RESPONSIBILITIES

- Monitors the integrity of the Financial Statements of the Company and any formal announcements relating to the Company's financial performance, reviewing significant reporting judgments contained in them, assisting the Board's oversight of the Company's compliance with applicable legal and regulatory requirements in this respect.
- Reviews and approves the External Auditors' terms of engagement, propose fees and planned audit scope.
- Oversees, monitors and reviews the functions and effectiveness of Internal Audit.
- It reviews the scope and planning of Internal Audit requirements.
- It reviews findings on management matters in conjunction with the External Auditors.
- The Committee reviews the effectiveness of the Company's system of accounting and internal control.
- The promotion, co-ordination and monitoring of risk management activities, including regular review and input to the corporate risk profile.

- The Committee shall ensure that principal risks of the Company's business are identified and effectively managed.
- To ensure that infrastructure, resources and systems are in place for risk management.
- Carry out review of the risk mitigation programmes for completeness, adequacy, proportionality and optimal allocation of resources.
- Setting the Company's tolerance for risks.
- Ensuring that management establishes a framework for assessing the various risks.
- It makes recommendation to the Board with regard to the appointment, removal and remuneration of the External Auditors, financial and senior management of the Company.
- It has the power to instruct the Internal Auditors to carry out investigations into any of the Company's activities which might be of interest or concern to the Board.
- The Committee is responsible for the review of the integrity of the Company's financial reporting and oversees the independence and objectivity of the External Auditors.
- The Committee may seek explanations and additional information from the External Auditors with management presence.
- It receives quarterly reports of the Internal Auditors.

MEETINGS OF THE COMMITTEE

The Committee meets not less than four times per annum and more frequently as circumstances require. This Committee met five times during the period under review.

3. BOARD ESTABLISHMENT & GOVERNANCE COMMITTEE

PURPOSE

The Committee deals with matters affecting executive management staff as it relates to recruitment, assessment, promotion, disciplinary measures, career development among others. The Committee is also responsible for monitoring corporate governance developments, best practices for corporate governance and furthering the effectiveness of the Company's corporate governance practices.

RESPONSIBILITIES

- Review from time to time the People Management Policies and make recommendations to the Board as appropriate;
- Review and recommend recruitment, appointment and promotion of Top Management Staff;

- Consideration and approval of disciplinary matters and exit/severance matters pertaining to Top Management Staff;
- Reviews periodically, reports on productivity/performance of Top Management;
- Review of staff compensation and welfare packages and make recommendation to the Board;
- Consider and approve annual training programmes for the Company's staff in order to ensure overall staff development.

In carrying out its Corporate Governance functions, the Committee shall undertake the following duties:

- Evaluate the current composition, organisation and governance of the Board and its Committees, as well as determine future requirements and make recommendations in this regard to the Board for its approval;
- Oversee the evaluation of the Board;
- Recommend to the Board, Director nominees for each Committee of the Board;
- Coordinate and recommend Board and Committee meeting schedules;
- Advise the Company on the best business practices being followed on corporate governance issues nationally and world–wide;
- Recommend to the Board the governance structure for the management of the affairs of the Company;
- Review and re-examine the Board charter annually and make recommendations to the Board for any proposed changes; and
- Annually review and evaluate Board performance.

MEETINGS OF THE COMMITTEE

The Committee meets at least once in each quarter and as necessary. The Board Establishment & Governance Committee met three times during the period under review.

Responsibilities

- 1. Ascertain whether the accounting and reporting policies of the company are in accordance with legal requirements and agreed ethical practices
- 2. Review the scope and planning of audit requirements
- 3. Review the findings on management matters in conjunction with external auditor and departmental responses thereon
- 4. Keep under review the effectiveness of the company's system of accounting and internal control
- 5. Make recommendations to the Board in regard to the appointment, removal and remuneration of the external auditors of the company
- 6. Authorise the internal auditor to carry out investigation into any activities of the company which may be of interest or concern to the Committee.

Meetings of the Committee

The Committee meets at regular intervals and as necessary to consider and review issues within its purview. The Statutory Audit Committee met two times during the period under review.

SHAREHOLDERS RIGHTS

The Board is continuously committed to the fair treatment of shareholders and ensures that the shareholders are given equal access to information about the Company irrespective of their shareholdings. The general meetings of the Company have always been conducted in an open manner which allows for free discussions on all issues on the agenda. The statutory and general rights of the shareholders are protected at all times.

Representatives of regulatory bodies such as the NAICOM, SEC and the NSE are always in attendance at our annual general meetings. The representatives of the shareholders association also attend the Company's general meetings and they are allowed to make full and fair participation during the meetings.

CONFLICT OF INTEREST

CHI has a policy in place that requires prompt disclosure from Directors of any real or potential conflict of interest that they may have regarding any matter that may come before the Board or its committees. CHI policy requires any Director who has or may have a conflict of interest to abstain from discussions and voting on such matters.

DIRECTORS' NOMINATION AND APPPOINTMENT PROCESS

Appointment to the Board is regulated by an approved Board Appointment Policy which accords with best practice, the requirements of the applicable codes of Corporate Governance and the provisions of the Companies and Allied Matters Act Cap C20 LFN 2004.

TRAINING AND INDUCTION OF NEW DIRECTORS

Training on directors needs to help them perform optimally in their responsibilities are organized on an annual basis. Board Retreat is also an avenue where the board members

are trained and refreshed on their fiduciary duties to the Company and on emerging trends in the insurance industry and the general business environment.

Newly appointed directors are made to undergo induction with the Board and top executives of the company to aid seamless integration to the responsibilities of the Board. The Board Retreat also serve as an opportunity for integrating new directors into the Board.

THE COMPANY SECRETARY

The Company Secretary primarily assists the Board and Management in the implementation and development of good corporate governance. The Company Secretary provides guidance and advice to the Board and the Management of the Company on issues of ethics, conflict of interest and good corporate governance.

The Company Secretary also does the following: advice the Directors on their duties, and ensure that they comply with corporate legislation and the Articles of Association of the Company; Arranging meetings of the Directors and the shareholders. This responsibility involves the issue of proper notices of meetings, preparation of agenda, circulation of relevant papers and taking and producing minutes to record the business transacted at the meetings and the decisions taken.

REMUNERATION

CHI has a comprehensive remuneration policy for Directors and all levels of Management staff. Our remuneration policy is adequate to attract, motivate and retain skilled, qualified and experienced individuals required to manage the Company successfully. The statement of the Directors remuneration is stated in the Audited Financial Statement.

SUSTAINABILITY REPORTING

The following principles and practices are part of the Company's approach towards ensuring a sustainable socio-economic environment:

a. Corruption

Ours is a company that abhors corruption in business practice. To ensure activities in this regard are discouraged, we have put in place an Anti- bribery policy which is included in all Service Level Agreements with vendors.

b. Environmental Protection

The nature of our services is not such that emit hazardous substances to the environment. We nonetheless have in place a robust Enterprise Risk Management framework. This consists of a policy and a set of procedures to identify, asses and manage environmental and other risks.

c. HIV/AIDS

The company does not discriminate in the employment of persons living with HIV/AIDS and any form of disability. This is explicit in the employment policy.

d. Awareness Creation

We are known as the foremost contributor to tertiary education in insurance through the annual Consolidated Hallmark Insurance Essay Competition. This forms part of our Corporate Social Responsibilities.

SPONSORSHIP AND DONATIONS

In line with our Corporate Social Responsibility initiatives the following sponsorship and donations were made to organisations during the year, including:

Ebuka Okafor Foundation	100,000
Motherless Babies Xmas Gift	200,000
Ikeja Golf Club (Captain's Day)	1,000,000

The Nigerian Council Of Registered Insurance Broke	100,000
AFN Brokers Limited	200,000
Victoria Garden City Tennis Association	150,000
The Nigerian Council Of Registered Insurance Broke	100,000
The Nigerian Council Of Registered Insurance Broke	400,000
National Association of Insurance and Pension Corre	100,000

EMPLOYMENT AND EMPLOYEES

a) Employment of disabled persons

The Company does not discriminate in considering applications for employment from disabled persons. If a disabled person meets all recruitment requirements, the Company shall not by reason of disability deny such a person from employment opportunity but would make adequate provision for the accommodation of such person. However, as at 31st December 2019 there was no disabled person in the Company employment.

b) Employees' training and Involvement

The Company ensures that the employees are kept fully informed of the values, goals and performance plans and progress during the year. They are involved in the goal setting at the beginning of the year and meet regularly to review performances. They make recommendations on innovative ideas towards meeting customers' expectations and improving on general operations and relationships within the Company. The Company pays strong importance to the use of our core values in the discharge of duties across the company and acquisition of Technical expertise through extensive internal and external training, on the job skills enhancement and professional development.

c) Health, Safety and welfare of employees

The Company strictly observes all safety and health regulations. Successfully managing HSE issues is an essential component of our business strategy. Through observance

and encouragement of this policy, we assist in protecting the environment and the overall well-being of all our stakeholders, specifically, our employees, clients, shareholders, contractors, and host communities.

We conduct regular fire training and drill exercises to sensitize all staff and stakeholders of the need to be safety conscious. The Company ensures that all safety measures are observed in all locations. During the period under consideration we did not experience any workplace accident or health hazards.

Employees are registered with Health Management Organizations of their choice for provision of medical services at the designated hospitals. We equally have arrangement with offsite hospitals to cater for emergency cases that occur during working hours.

SECURITY TRADING POLICY

In compliance with the requirement of section 14 of the Nigerian Stock Exchange amended rules, the company has in place a security trading policy which is designed to prevent insider trading in the company's securities by Board Members, Executive Management and persons that are closely related to them who are privy to price sensitive information. The policy also prevents them from releasing such price sensitive information to their privies or agent for the purpose of trading in the company's shares.

AUDITORS

The Auditors SIAO Professional Services have indicated their willingness to serve as the

Company's External Auditors in accordance with section 357(2) of the Companies and

Allied Matters Act Cap C20 LFN 2004.

A resolution will be proposed at the annual general meeting to authorize the Directors to fix their remuneration.

COMPLIANCE STATEMENT

The Board of Directors affirm that it is in substantial compliance with the corporate governance codes and requirements of the Securities and Exchange Commission, National Insurance Commission, the Financial Reporting Council, the Nigerian Stock Exchange, the Corporate Affairs Commission and other applicable regulatory requirements of governments agencies.

By order of the Board

RUKEVWE FALANA Company Secretary FRC/2016/NBA/00000014035

Statement of Directors' Responsibilities

In accordance with the provisions of Section 334 and 335 of the Companies and Allied Matters Act 2004 and Sections 24 and 28 of the Banks and Other Financial Institutions Act 1991, the Directors are responsible for the preparation of annual financial statements which give a true and fair view of the financial position at the end of the financial year of the Company and its Subsidiaries and of the operating result for the year then ended.

The responsibilities include ensuring that:

- Appropriate and adequate internal controls are established to safeguard the assets of the Group and to prevent and detect fraud and other irregularities;
- The Group keeps proper accounting records which disclose with reasonable accuracy the financial position of the Group and which ensure that the financial statements comply with the requirements of the Companies and Allied Matters Act, 2004, Banks and Other Financial Institutions Act, 1991, Insurance Act 2003, Financial Reporting Council Act 2011 and Prudential Guidelines issued by NAICOM.
- The Group has used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates, and that all applicable accounting standards have been followed; and
- The financial statements are prepared on a going concern basis unless it is presumed that the Group will not continue in business.

The Directors accept responsibility for the year's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates in conformity with;

- Insurance Act 2003
- International Financial Reporting Standards;
- Companies and Allied Matters Act 2004;
- Banks and Other Financial Institutions Act, 1991;
- NAICOM Prudential Guidelines; and
- Financial Reporting Council Act, 2011.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Group and of its operating result for the year ended.

The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of the financial statements, as well as adequate systems of financial control. Nothing has come to the attention of the Directors to indicate that the Group will not remain a going concern for at least twelve months from the date of this statement.

Signed on behalf of the Directors on 24 February 2020 by:

Mr. Eddie Efekoha Managing Director/CEO FRC/2013/CIIN/0000002189

Mr. Obinna Ekezie Chairman, Board of Director FRC/2017/IODN/000000017485

Certification Pursuant to Section 60 (2) of Investment and Securities Act No. 29 of 2007

We the undersigned hereby certify the following with regards to our Audited Financial Statements for the period ended December 31, 2019 that:

a. We have reviewed the report;

To the best of our knowledge, the report does not contain:

- i. Any untrue statement of a material fact, or
- ii. Omit to state a material fact, which would make the statements misleading in the light of circumstances under which such statements were made;
- b. To the best of our knowledge, the financial statement and other financial information included in this report fairly present in all material respects the financial condition and results of operation of the company as of, and for the periods presented in this report.
- c. We:
 - -Are responsible for establishing and maintaining internal controls.
 - -have designed such internal controls to ensure that material information relating to the Company and its consolidated subsidiaries is made known to such officers by others within those entities particularly during the period in which the periodic reports are being prepared;
 - -have evaluated the effectiveness of the Company's internal controls as of date within 90 days prior to the report;
 - -have presented in the report our conclusions about the effectiveness of our internal controls based on our evaluation as of that date;
- d. We have disclosed to the auditors of the Company and Audit Committee:
- i. All significant deficiencies in the design or operation of internal controls which would adversely affect the company's ability to record, process, summarize and report financial data and have identified for the company's auditors any material weakness in internal controls, and
- ii. Any fraud, whether or not material, that involves management or other employees who have significant role in the company's internal controls;

We have identified in the report whether or not there were significant changes in internal controls or other factors that could significantly affect internal controls subsequent to the date of our evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

INDEPENDENT AUDITOR'S REPORT

To the Members of Consolidated Hallmark Insurance Plc

Report on the Audit of the Consolidated Financial Statements for the year ended 31st December, 2019

Opinion

We have audited the consolidated financial statements of Consolidated Hallmark Insurance Plc (the Company) and its subsidiaries (altogether, the Group), which comprise the consolidated statement of financial position as at December 31, 2019 and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of **Consolidated Hallmark Insurance PIc and its subsidiaries** as at December 31, 2019 and of its consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) applicable and in the manner required by the Financial Reporting Council Act 2011, Companies and Allied Matters Act, CAP C20 LFN 2004, the Insurance Act 2003 of Nigeria, the Investments and Securities Act 2007 and the relevant NAICOM circulars.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the international Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The following key audit matters were identified:

Key Audit Matters

Valuation of Insurance Contract Liabilities

Refer to note 15 in the Group financial statements

How our audit addressed the key Audit Matters

Our procedures in relation to management's valuation of insurance contract liabilities using a firm of Actuaries include:

Management has estimated the value of insurance

contract liabilities in the Group financial statements to be N4.116 billion as at year ended 31st December, 2019 based on a liability adequacy test carried out by an external firm of actuaries. The valuation depended on a set of key assumptions, and significant judgements including suppositions that:

- Policies are written, and claims occur uniformly throughout the year for each class of business;

- Future claims follow a regression pattern;

 Weighted past average inflation will remain unchanged into the future;

- UPR is calculated on the assumption that risk will occur evenly during the duration of the policy.

Other information

- Evaluate and validate controls over insurance contract liability;

- Evaluate the independent external actuary's competence, capability and objectivity;

- Assessing the methodologies used and the appropriateness of the key assumptions;

- Checking the accuracy and relevance of data provided to the actuary by management;

- Reviewing the result based on the assumptions.

We assessed the disclosures on note 15 and found them to be appropriate based on the assumptions and test result.

Management is responsible for the Other Information. The Other Information comprises all the information in the Consolidated Hallmark Insurance PIc 2019 annual report other than the Group financial statements and our auditors' report thereon ("the Other Information").

Our opinion on the Group financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Group financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the Group financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Based on the work we have performed on the Other information obtained prior to the date of this auditors' report, if we conclude that there is a material misstatement of the Other Information; we are required to report that fact.

We performed our responsibility on the Other information and have nothing to report in this regard.

Responsibilities of the Directors for the Group Financial Statements

The directors are responsible for the preparation of Group financial statements that give a true and fair view in accordance with International Financial Reporting Standard (IFRSs) and in the manner required by the Companies and Allied Matters Act, CAP C20, LFN 2004, Financial Reporting Council Act 2011, the Insurance Act 2003 of Nigeria, the Investments and Securities Act 2007 and National Insurance Commission (NAICOM) circulars. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

In preparing the Group financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Group Financial Statements

Our Objectives are to obtain reasonable assurance about whether the Group financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with section 359 (1) of the Companies and Allied Matters Act, Cap C20, LFN 2004 and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Group financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Group financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks; and, obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Group financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Group financial statements, including the disclosures, and whether the Group financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Group financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationship and other matters that may reasonably be thought to bear on our independence.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the Group financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest of such communication.

Report on Other Legal and Regulatory Requirements

Contravention of Regulatory Guidelines

The company did not contravene any legal or regulatory guideline during the year.

Compliance with the requirements of the Companies and Allied Matters Act, 2004 and Nigerian Insurance Act 2003

The Companies and Allied Matters Act, CAP C20, LFN 2004 and Nigerian Insurance Act require that in carrying out our audit we consider and report to you on the following matters. We confirm:

- i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) In our opinion, proper books of account have been kept by the Group, so far as appears from our examination of those books;
- iii) The Group's statement of financial position and profit or loss and other comprehensive income are in agreement with the books of account.

Report of the Audit Committee

To the members of Consolidated Hallmark Insurance Plc

In accordance with the provisions of Section 359(6) of the Companies and Allied Matters Act, Cap C20 of the Laws of the Federation of Nigeria 2004, we the Members of the Audit Committee of Consolidated Hallmark Insurance Plc, having carried out our statutory functions under the Act, hereby report as follows:

- We have reviewed the scope and planning of the audit for the year ended December 31, 2019 and we confirm that they were adequate.
- The Group's reporting and accounting policies as well as internal control systems conform to legal requirements and agreed ethical practices.
- We are satisfied with the management responses to the External Auditors' findings on management matters for the year ended December 31, 2019.

Finally, we acknowledge and appreciate the co-operation of Management and Staff in the duties.

Dr. Tony Anonyai Chairman of the Audit Committee FRC/2013/ICAN/0000002579

The Group

The group comprises of Consolidated Hallmark Insurance PIc (the company) and its subsidiaries - CHI Capital Limited, Hallmark Health Services Limited, CHI Microinsurance Limited (in formation) and Grand Treasurers Limited. CHI Capital Limited has one wholly owned subsidiary 'CHI Support Services Limited'.

Company Information:

Consolidated Hallmark Insurance Plc (formerly Consolidated Risk Insurers Plc) was incorporated on 2 August 1991 and domiciled in Nigeria. The address of the company registered office is 266 Ikorodu road Lagos (formerly plot 33d Bishop Aboyade Cole Street, Victoria Island, Lagos).

The Company changed its name from Consolidated Risk Insurers PIc to Consolidated Hallmark Insurance PIc following its merger with Hallmark Assurance PIc and The Nigerian General Insurance Company Limited in line with the consolidation reform of the National Insurance Commission (NAICOM) announced in 2005. Consolidated Hallmark Insurance PIc came into effect from 1 March 2007.

These consolidated and separate financial statements have been authorized for issue by the Board of Directors on **24 February 2020**.

Principal Activities

Consolidated Hallmark Insurance PIc is a General Business and Special Risks Insurance underwriting firm fully capitalized in line with statutory requirements of the industry regulatory body – National Insurance Commission. The company underwrites Aviation, Oil and Gas, Marine Cargo and Hull and other non – life insurance underwriting including Motor, Fire and Special Perils, Goods-in-transit, Engineering Insurance and General Accident insurance businesses.

The Company identifies prompt claims payment as a means to achieving customer satisfaction and therefore emphasizes prompt claims payment in its operations. The company also invests its available funds in interest bearing and highly liquid instruments to generate adequate returns to meet its claims obligations.

The Company is a public limited company incorporated and domiciled in Nigeria. Its shares are listed on the floor of the Nigerian Stock Exchange and have its registered office at Consolidated Hallmark House, 266, Ikorodu Road, Lagos.

Going concern assessment

These consolidated financial statements have been prepared on a going concern basis. The group has neither intention nor need to reduce substantially its business operations. The management believes that the going concern assumption is appropriate for the group and there are no going concern threats to the operations of the group.

Subsidiaries;

CHI Microinsurance Limited (Undergoing Formation)

CHI Microinsurance Limited is a fully owned subsidiary of Consolidated Hallmark Insurance Plc, incorporated in 2016 and undergoing NAICOM licensing process to provide Life microinsurance services. Microinsurance is a financial arrangement to protect low income people against specific perils in exchange for regular premium payment proportionate to the likelihood and cost of risk involved.

CHI Capital Limited

CHI Capital Limited is a fully owned subsidiary of Consolidated Hallmark Insurance Plc. It carries on the business of consumer leasing and corporate support services. CHI Capital Limited incorporated CHI Support Services Limited in 2014 with 100% shareholdings.

Grand Treasurers Limited

Grand Treasurers Limited was indirect subsidiary of Consolidated Hallmark Insurance up to November 2019 before the Board of CHI Capital limited transferred Her holding 100% to the Parent (Consolidated Hallmark Insurance PIc).

Grand Treasurers Limited now direct subsidiary of the Consolidated Hallmark Insurance Plc. The business of the company is consumer lending, lease financing and other finance company business.

CHI Support Services Limited is a company incorporated under the Companies and Allied Matters Act CAP C20 LFN 2004, as a limited liability company in 2014 and authorised by the Nigerian Communication Commission to provide the service of tracking vehicles. CHI Support Services was incorporated in Nigeria.

Hallmark Health Services Ltd

Hallmark Health Services Ltd is a fully owned subsidiary of Consolidated Hallmark Insurance Plc. Incorporated in 2017. It is envisioned to be a leading health insurance company to meet the need for quality health maintenance services providing affordable and lasting health care plan for all Nigerians

Statement of Significant Accounting Policies

The following are the significant accounting policies adopted by the Group in the preparation of its consolidated financial statements. These policies have been consistently applied to all year's presentations, unless otherwise stated

1. Basis of presentation:

1.1 Statement of compliance with IFRS

These financial statements are the separate and consolidated financial statement of the company and its subsidiaries (together, "the group"). The group's financial statements for the year 2019 have been prepared in accordance with the International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standard Board ("IASB"), and interpretations issued by IFRS's interpretation committee (IFRIC) and in compliance with the Financial Reporting Council of Nigeria Act, No 6, 2011.

These are the Group's financial statements for the year ended 31 December 2019, prepared in accordance with IFRS 10 - Consolidated Financial Statements.

1.1.2 Application of new and amended standards

The accounting policies adopted are consistent with those of the previous financial year despite the adoption of IFRS. For the preparation of these Financial Statements, the following new, revised or amended requirements are mandatory for the first time for the financial year beginning 1 January 2019.

IFRIC 23 — Uncertainty over Income Tax Treatments

The interpretation is to be applied to the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12.

Effective for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted.

IFRS 16 — Leases

IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. Lessor accounting however remains largely unchanged from IAS 17 and the distinction between operating and finance leases is retained.

Effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted, if IFRS 15, Revenue from Contracts with Customers, has also been applied.

IFRS 9 - Financial instruments

IFRS 9 introduces a new approach for classification and measurement of financial instruments, a more forward looking Impairment methodology and a new general hedge accounting requirement.

Statement of Significant Accounting Policies (Cont'd)

Classification and Measurement

IFRS 9 requires financial assets to be classified into one of three measurement categories: fair value through profit or loss, fair value through other comprehensive income and amortised cost. Financial assets will be measured at amortised cost if they are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and their contractual cash flows represent solely payments of principal and interest.

Financial assets will be measured at fair value through other comprehensive income if they are held within a business model whose objective is achieved by collecting both contractual cash flows and selling financial assets and their contractual cash flows represent solely payments of principal and interest.

Financial assets not meeting either of these two business models; and all equity instruments (unless designated at inception to fair value through other comprehensive income); and all derivatives are measured at fair value through profit or loss. An entity may, at initial recognition, designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch. The Group has undertaken an assessment to determine the potential impact of changes in classification and measurement of financial assets. Our assessment revealed that the adoption of IFRS 9 is unlikely to result in significant changes to existing asset measurement bases. IFRS 9 retains most of the existing requirements for financial liabilities. However, for financial liabilities designated at fair value through profit or loss, gains or losses attributable to changes in own credit risk shall be presented in Other Comprehensive Income.

IFRS 9 retains most of the existing requirements for financial liabilities. However, for financial liabilities designated at fair value through profit or loss, gains or losses attributable to changes in own credit risk shall be presented in Other Comprehensive Income.

The hedge accounting requirements in IFR S 9 are optional. If certain eligibility and qualification criteria are met, hedge accounting allows an entity to reflect risk management activities in the financial statements by matching gains or losses on financial hedging instruments with losses or gains. The amendments had no material effect on the Group's Financial Statements.

Impairment Methodology

The IFRS 9 impairment model will be applicable to all financial assets at amortised cost, debt instruments measured at fair value through other comprehensive income, lease receivables, loan commitments and financial guarantees not measured at fair value through profit or loss.

Statement of Significant Accounting Policies (Cont'd)

IFRS 9 replaces the existing 'incurred loss' impairment approach with an Expected Credit Loss ('ECL') model, resulting in earlier recognition of credit losses compared with IAS 39. Expected credit losses are the unbiased probability weighted average credit losses determined by evaluating a range of possible outcomes and future economic conditions. The ECL model has three stages. Entities are required to recognise a 12 month expected loss allowance on initial recognition (stage 1) and a lifetime expected loss allowance when there has been a significant increase in credit risk since initial recognition (stage 2). Stage 3 requires objective evidence that an asset is credit-impaired, which is similar to the guidance on incurred losses in IAS 39.

The requirement to recognise lifetime ECL for assets which have experienced a significant increase in credit risk since origination, but which are not credit impaired, does not exist under IAS 39. The assessment of whether an asset is in stage 1 or 2 considers the relative change in the probability of default occurring over the expected life of the instrument, not the change in the amount of expected credit losses. Reasonable and supportable forward looking information will also be used in determining the stage allocation. In general, assets more than 30 days past due, but not credit impaired, will be classed as stage 2.

IFRS 9 requires the use of more forward looking information including reasonable and supportable forecasts of future economic conditions. Reporting entities will be required to develop the capability to model a number of economic scenarios and capture the impact on credit

losses to ensure the overall ECL represents a reasonable distribution of economic outcomes. Appropriate governance and oversight needs to be established around the process.

An assessment of the ECL in the Group's balance sheet reflects an increase in the provisions for credit losses. However, this increase does not have a significant impact on regulatory capital and invariably the Capital adequacy due to the Group's strong earnings and retention capacity over the years.

The Group conducted an initial predominance assessment and having met the criteria for exemption, the Board opted for temporary exemption option (deferral approach). The result of the predominance assessment using 2015 financial report as stated in IFRS 4 amended 2016 section 20D of the standard is stated below;

The carrying amount of its liabilities arising from insurance contracts and insurance connected liabilities for the group sum up to N4.16billion as at 31 Dec 2018 (31 Dec 2017 : N3.85billion), Company N4.10billion (31 Dec 2017: 3.85billion) which is greater than 80 per cent of the total carrying amount of all its liabilities as at 31 Dec 2018 and 31 Dec 2017 respectively;

The Company is registered with CAC to carryout insurance activities and its activities are predominantly connected with insurance contracts.

Fair value disclosures

Financial assets with contractual terms that give rise to cash flows that are solely payments of principal and interest:

The group financial assets with contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets with contractual terms that do not give rise to cash flows that are solely payments of principal and interest

These are financial assets that meets the definition of held for trading in line with IFRS 9; or that is managed and whose performance is evaluated on a fair value basis.

The Central Bank of Nigeria that regulate a member of the Group, Grand Treasurers Limited, issued a Guidance Note dated November 30, 2018 to all Other Financial

Institutions (OFI) on the implementation of IFRS 9 financial instruments. See OFISD/DIR/GEN/IFR/020/101.

1.1.3 Standards and Interpretations Issued but not yet Effective

IAS 1 — Presentation of Financial Statements

IAS 1 "Presentation of Financial Statements" sets out the overall requirements for financial statements, including how they should be structured, the minimum requirements for their content and overriding concepts such as going concern, the accrual basis of accounting and the current/non-current distinction. The standard requires a complete set of financial statements to comprise a statement of financial position, a statement of profit or loss and other comprehensive income, a statement of changes in equity and a statement of cash flows.

IAS 1 has been revised to incorporate a new definition of "material" and IAS 8 has been revised to refer to this new definition in IAS 1.

The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier application is permitted.

IAS 8 — Accounting Policies, Changes in Accounting Estimates and Errors

IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" is applied in selecting and applying accounting policies, accounting for changes in estimates and reflecting corrections of prior period errors. The standard requires compliance with any specific IFRS applying to a transaction, event or condition, and provides guidance on developing accounting policies for other items that result in relevant and reliable information.

Changes in accounting policies and corrections of errors are generally retrospectively accounted for, whereas changes in accounting estimates are generally accounted for on a prospective basis.

The amendment is effective for annual reporting periods beginning on or after January 1, 2020. Earlier application is permitted.

IFRS 17 — Insurance Contracts

IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of IFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows.

The IASB tentatively decided to defer the effective date of IFRS 17, Insurance Contracts to annual periods beginning on or after January 1, 2022. The IASB also tentatively decided to defer the fixed expiry date for the temporary exemption to IFRS 9 in IFRS 4 by one year so that all insurance entities must apply IFRS 9 for annual periods on or after January 1, 2022.

The Group is assessing the potential impact of the new standard which will be effective for annual reporting periods beginning on or after 1 January 2022.

Statement of Significant Accounting Policies (Cont'd) IFRS 3 — Business Combinations

IFRS 3 "Business Combinations" outlines the accounting when an acquirer obtains control of a business (e.g. an acquisition or merger). Such business combinations are accounted for using the 'acquisition method', which generally requires assets acquired and liabilities assumed to be measured at their fair values at the acquisition date.

1.2 Basis of measurement

These financial statements are prepared on the historical cost basis except for the following:

- Available for sale financial assets are measured at fair value.
- Investment property is measured at fair value.
- Assets held for trading are measured at fair value

1.3 Functional and presentation currency

The financial statements are presented in the functional currency, Nigeria naira which is the Group's functional currency.

1.4 Consolidation

The Group financial statements comprise the financial statements of the company and its subsidiaries, CHI Capital Limited, Hallmark Health Services Limited and CHI Microinsurance Limited, all made up to 30 September, each year. The financial statements of subsidiaries are consolidated from the date the group acquires control, up to the date that such effective control seizes.

Subsidiaries are all entities (including structured entities) over which the Group exercise control. Control is achieved when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

- (1) Power over the investee
- (2) Exposure, or rights, to variable returns from its involvement with the investee, and
- (3) The ability to use its power over the investee to affect the amount of the investor's returns.

The subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from the date that control ceases.

Subsidiaries are measured at cost less impairment in the separate financial statement.

1.5 Use of estimates and judgments

The Group makes estimate and assumption about the future that affects the reported amounts of assets and liabilities. Estimates and judgement are continually evaluated and based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and

assumption. The annual accounting basis is used to determine the underwriting result of each class of insurance business written.

The effect of a change in an accounting estimate is recognized prospectively by including it in the comprehensive income in the period of the change, if the change affects that period only, or in the period of change and future period, if the change affects both.

The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amount of asset and liabilities within the next financial year are discussed below:

(a) The ultimate liability arising from claims made under insurance contracts

The estimation of the ultimate liability arising from claims made under insurance contracts is the group's most critical accounting estimate. There are several sources of uncertainty that need to be considered in the estimate of the liability that the company will ultimately pay for such claims. The uncertainty arises because all events affecting the ultimate settlement of the claims have not taken place and may not take place for some time. Changes in the estimate of the provision may be caused by receipt of additional claim information, changes in judicial interpretation of contract, or significant changes in severity or frequency of claims from historical records. The estimates are based on the company's historical data and industry experience. The ultimate claims liability computation is subjected to a liability adequacy test by an actuarial consultant using actuarial models.

(b) Impairment of available-for-sale equity financial assets

The Group determines that available-for-sale equity financial assets are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgement. In making this judgement, the group evaluates among other factors, the normal volatility in share price, the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flow. Impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology, and financing and operational cash flows.

1.

The fair values of financial instruments where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. In these

cases the fair values are estimated from observable data in respect of similar financial instruments or using models. Where market observable inputs are not available, they are estimated based on appropriate assumptions. Where valuation techniques (for example, models) are used to determine fair values, they are

validated and periodically reviewed by qualified personnel independent of those that sourced them.

All models are certified before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. To the extent practical, models use only observable data; however, areas such as credit risk, volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The group adopts costs less impairment to determine the fair value of its available for sale financial assets whenever observable market data exist for this asset.

(c)Impairment of trade receivables

The Group adopted the policy of no premium no cover and the trade receivables outstanding as at the reporting period are premium receivable within 30days that are due from brokers. The trade receivable was further subjected to impairment based on management judgement. Internal models were developed based on company's specific collectability factors and trends to determine amounts to be provided for impairment of trade receivables. Efforts are made to assess significant debtors individually based on information available to management and where there is objective evidence of impairment they are appropriately impaired. Other trade receivables either significant or otherwise that are not specifically impaired are grouped on a sectorial basis and assessed based on a collective impairment model that reflects the company's debt collection ratio per sector.

(d) Deferred acquisition costs (DAC)

Commissions that vary with and are related to securing new contracts and renewing existing contracts are capitalised as an intangible asset under Deferred Acquisition Costs (DAC). The amount of commission to be deferred is directly proportional to the time apportionment basis of the underlying premium income to which the acquisition cost is directly related.

(e)Income taxes

The Group periodically assesses its liabilities and contingencies related to income taxes for all years open to audit based on the latest information available. For matters where it is probable that an adjustment will be made, the Group records its best estimate of the tax liability including the related interest and penalties in the current tax provision.

Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

2. Segment reporting

An operating segment is a component of the Group engaged in business activities from which it can earn revenues whose operating results are reviewed regularly by the Group's Executive Management in order to make decisions about resources to

be allocated to segments and assessing segments performance. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision maker is the Executive Management.

3. Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, deposits with a maturity of three months or less and other short-term highly liquid investments that are readily convertible into known amounts of cash. For the purpose of reporting cash flows, cash and cash equivalents include cash on hand; bank balances, fixed deposits and treasury bills within 90days.

3.1 Financial assets

The Group classifies its financial assets into the following categories: at fair value through profit or loss, loans and receivables, held to maturity and available for sale. The classification is determined by management at initial recognition and depends on the purpose for which the investments were acquired. At initial recognition, the Group classifies its financial assets in the following categories:

3.1.1 Financial assets at fair value through profit or loss

A financial asset is classified in this category if acquired principally for the purpose of selling or repurchasing in the short-term. Financial instruments in this category are recognized initially and subsequently at fair value. Transaction costs are expensed in the consolidated statement of income. Gains and losses arising from changes in fair value are presented in the consolidated statement of income in the period in which they arise. Non-derivative financial assets and liabilities at fair value through profit or loss are classified as current except for the portion expected to be realized or paid beyond twelve months of the balance sheet date, which are classified as long-term. Assets where there is a ready and

liquid quoted market, which are acquired for the purpose of short-term trade, and where mark-to-market valuations are possible on every trading day, are trading assets. Assets do not fall under this category merely because there is a market for the asset – the entity must have acquired the asset for short term trading intent.

3.1.2 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Group intends to sell in the short term or that it has designated as at fair value through profit or loss or available for sale. The Group's loans and receivables comprise loans issued to corporate entities, individual and/or staff of the Group. Loans and receivables are initially recognized at the amount expected to be received, less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest rate method less a provision for impairment.

Statement of Significant Accounting Policies (Cont'd) 3.1.3 Available-for-sale investments

These are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss. The Group's available-for-sale assets comprise investments in equity securities (other than those qualifying as cash equivalents).

Available-for-sale investments are recognized initially at fair value plus transaction costs and are subsequently carried at fair value. In cases where the fair value of an unlisted equity cannot be measured reliably, the instruments are carried at cost less impairment. Gains or losses arising from remeasurement are recognized in other comprehensive income except for exchange gains and losses on the translation of debt securities, which are recognized in the consolidated statement of income. When an available-for-sale investment is sold or impaired, the accumulated gains or losses are moved from accumulated other comprehensive income to the statement of income. Available-for-sale investments are classified as non-current, unless an investment matures within twelve months, or management expects to dispose of it within twelve months.

Dividends on available-for-sale equity instruments are recognized in the statement of income as dividend income when the Group's right to receive payment is established.

3.1.4 Held-to-maturity financial assets

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity other than:

- those that the Group upon initial recognition designates as at fair value through profit or loss;
- those that the Group designates as available for sale; and
- those that meet the definition of loans and receivables.

Held-to-maturity investments are initially recognized at cost and subsequently measured at amortized cost. Interests on held-to-maturity investments are included in the income

statement and are reported as 'Interest and similar income. In the event of an impairment, it is being reported as a deduction from the carrying value of the investment and recognised in the income statement as 'Net gains/ (losses) on investment securities'

3.2 Reclassifications

Financial assets other than loans and receivables are permitted to be reclassified out of the held-for-trading category only in rare circumstances arising from a single

event that is unusual and highly unlikely to recur in the near-term. In addition, the Group may choose to reclassify financial assets that would meet the definition of loans and receivables out of the held-for-trading or available-for-sale categories, if the Group has the intention and ability to hold these financial assets for the foreseeable future or until maturity at the date of reclassification. Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortized cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made. Effective interest rates for financial assets reclassified to loans and receivables and held-to-maturity categories are determined at the reclassification date. Further increases in estimates of cash flows adjust effective interest rates prospectively.

3.3 Impairment of assets

3.3.1 Financial assets carried at amortized cost

The Group assesses at each end of the reporting period whether there is objective evidence that a financial asset or company of financial assets is impaired. A financial asset or company of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or company of financial assets that can be reliably estimated. Objective evidence that a financial asset or company of assets is impaired includes observable data that comes to the attention of the Group about the following events:

- Significant financial difficulty of the issuer or debtor;
- A breach of contract, such as a default or delinquency in payments;
- It is becoming probable that the issuer or debtor will enter bankruptcy or other financial reorganization;
- The disappearance of an active market for that financial asset because of financial difficulties; or observable data indicating that there is a measurable decrease in the estimated future cash flow from a company of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the Group, including: adverse changes in the payment status of issuers or debtors in the Group; or national or local economic conditions that correlate with defaults on the assets in the Group.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a company of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred on loans and receivables or held-to-maturity investments carried at amortized cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the income statement. If a held-to-maturity investment or a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics (i.e., on the basis of the Group's grading process that considers asset type, industry, geographical location, past-due status and other relevant factors). Those characteristics are relevant to the estimation of future cash flows of such assets by being indicative of the issuer's ability to pay all amounts due under the contractual terms of the debt instrument being evaluated.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as improved credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the income statement.

3.3.2 Assets classified as available for sale

The Group assesses at each date of the statement of financial position whether there is objective evidence that a financial asset or a company of financial assets is impaired. In the case of equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is an objective evidence of impairment resulting in the recognition of an impairment loss. In this respect, a decline of 20% or more is regarded as significant, and a period of 12 months or longer is considered to be prolonged. If any such quantitative evidence exists for available-for-sale financial assets, the asset is considered for impairment, taking qualitative evidence into account.

The cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss) is removed from equity and recognised in the income statement.

Impairment losses recognised in the income statement on equity instruments are not reversed through the income statement. If in a subsequent period the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was

recognised in profit or loss, the impairment loss is reversed through the income statement.

3.3.3 Impairment of non-financial assets

The Group assesses annually whether there is any indication that any of its assets have been impaired. If such indication exists, the asset's recoverable amount is estimated and compared to its carrying value. Where it is impossible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the smallest cash-generating unit to which the asset is allocated. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount an impairment loss is recognized immediately in profit or loss, unless the asset is carried at a revalued amount, in which case the impairment loss is recognized as revaluation decrease.

3.3.4 Impairment of other non-financial assets

Assets that have an indefinite useful life – for example, land – are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

4. Leases

This is a new standard which replaces IAS 17 Leases, and introduces a single lessee accounting model. The main changes arising from the issue of IFRS 16 which are likely to impact the company are as follows:

- Company as lessee: Lessees are required to recognize a right-of-use asset and a lease liability for all leases, except short term leases or leases where the underlying asset has a low value, which are expensed on a straight line or other systematic basis.
- The cost of the right-of-use asset includes, where appropriate, the initial amount of the lease liability; lease payments made prior to commencement of the lease less incentives received; initial direct costs of the lessee; and an estimate for any provision for dismantling, restoration and removal related to the underlying asset.
- The lease liability takes into consideration, where appropriate, fixed and variable lease payments; residual value guarantees to be made by the lessee; exercise price of purchase options; and payments of penalties for terminating the lease.

The right-of-use asset is subsequently measured on the cost model at cost less accumulated depreciation and impairment and adjusted for any re-measurement of the lease liability. However, right-of-use assets are measured at fair value when they meet the definition of investment property and all other investment property is accounted for on the fair value model. If a right-of-use asset relates to a class of

property, plant and equipment which is measured on the revaluation model, then that right-of-use asset may be measured on the revaluation model.

- The lease liability is subsequently increased by interest, reduced by lease payments and re-measured for reassessments or modifications. □ Re-measurements of lease liabilities are affected against right-of-use assets, unless the assets have been reduced to nil, in which case further adjustments are recognised in profit or loss.
- The lease liability is re-measured by discounting revised payments at a revised rate when there is a change in the lease term or a change in the assessment of an option to purchase the underlying asset.
- The lease liability is re-measured by discounting revised lease payments at the original discount rate when there is a change in the amounts expected to be paid in a residual value guarantee or when there is a change in future payments because of a change in index or rate used to determine those payments.
- Certain lease modifications are accounted for as separate leases. When lease
 modifications which decrease the scope of the lease are not required to be
 accounted for as separate leases, then the lessee re-measures the lease liability by
 decreasing the carrying amount of the right of lease asset to reflect the full or
 partial termination of the lease. Any gain or loss relating to the full or partial
 termination of the lease is recognised in profit or loss. For all other lease
 modifications which are not required to be accounted for as separate leases, the
 lessee re-measures the lease liability by making a corresponding adjustment to the
 right-of-use asset.
- Right-of-use assets and lease liabilities should be presented separately from other assets and liabilities. If not, then the line item in which they are included must be disclosed. This does not apply to right-of-use assets meeting the definition of investment property which must be presented within investment property. IFRS 16 contains different disclosure requirements compared to IAS 17 leases. Company as lessor:
- Accounting for leases by lessors remains similar to the provisions of IAS 17 in that leases are classified as either finance leases or operating leases. Lease classification is reassessed only if there has been a modification.
- A modification is required to be accounted for as a separate lease if it both increases the scope of the lease by adding the right to use one or more underlying assets; and the increase in consideration is commensurate to the stand alone price of the increase in scope.

- If a finance lease is modified, and the modification would not qualify as a separate lease, but the lease would have been an operating lease if the modification was in effect from inception, then the modification is accounted for as a separate lease.
- In addition, the carrying amount of the underlying asset shall be measured as the net investment in the lease immediately before the effective date of the modification. IFRS 9 is applied to all other modifications not required to be treated as a separate lease.
- Modifications to operating leases are required to be accounted for as new leases from the effective date of the modification. Changes have also been made to the disclosure requirements of leases in the lessor's financial statements.

Sale and leaseback transactions:

In the event of a sale and leaseback transaction, the requirements of IFRS 15 are applied to consider whether a performance obligation is satisfied to determine whether the transfer of the asset is accounted for as the sale of an asset.

If the transfer meets the requirements to be recognised as a sale, the seller-lessee must measure the new right-of use asset at the proportion of the previous carrying amount of the asset that relates to the right-of-use retained. The buyer-lessor accounts for the purchase by applying applicable standards and for the lease by applying IFRS 16.

If the fair value of consideration for the sale is not equal to the fair value of the asset, then IFRS 16 requires adjustments to be made to the sale proceeds. When the transfer of the asset is not a sale, then the seller-lessee continues to recognize the transferred asset and recognizes a financial liability equal to the transfer proceeds. The buyer-lessor recognizes a financial asset equal to the transfer proceeds. The effective date of the standard is for years beginning on or after January 1, 2019. The company is adopting the standard for the first time in the 2019 annual report and financial statements. The impact of this standard is not material on the financial statements.

5. Trade receivables

Trade receivables are recognized when due. These include amounts due from agents, brokers and insurance contract holders. If there is objective evidence that the insurance receivable is impaired, the Company reduces the carrying amount of the insurance receivable accordingly and recognizes that impairment loss in the income statement. The Company first assesses whether objective evidence of impairment exists individually for receivables that are individually significant. If the company determines that no objective evidence of impairment exists for an individually assessed receivable, whether significant or not, it includes the receivable in a group of receivables with similar credit risk characteristics and collectively assesses them for impairment using the model that reflects the company's historical outstanding premium collection ratio per sector.

6. Reinsurance assets and liabilities

These are contracts entered into by the Company with reinsurers under which the Company is compensated for losses on one or more contracts issued by the Company, and which also meets the classification requirements for insurance contracts held as reinsurance contracts. Insurance contracts entered into by the Company under which the contract holder is another insurer (inwards reinsurance) are included in insurance contracts.

The benefits to which the Company is entitled under its reinsurance contracts are recognized as reinsurance assets. These assets consist of short-term balances due from reinsurers, as well as long term receivables that are dependent on the expected claims and benefits arising under the related reinsured insurance contracts. Amounts recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured insurance contracts and in accordance with the terms of each reinsurance contract.

In certain cases, a reinsurance contract is entered into retrospectively to reinsure a notified claim under the Company's property or casualty insurance contracts.

Where the premium due to the reinsurer differs from the liability established by the Company for the related claim, the difference is amortized over the estimated remaining settlement period.

The Company assesses its reinsurance assets for impairment. If there is objective evidence that the reinsurance asset is impaired, the Company reduces the carrying amount of the reinsurance asset to its recoverable amount and recognizes that impairment loss in the income statement. The Company gathers the objective evidence that a reinsurance asset is impaired using the same process adopted for financial assets held at amortized cost. The impairment loss is calculated following the same method used for these financial assets

7. Deferred acquisition costs

Acquisition costs comprise mainly of agent's commission. These costs are amortized and deferred over the terms of the related policies to the extent that they are considered to be recoverable from unearned premium.

8. Other receivables and prepayments

Receivables are stated at their original invoiced value, as the interest that would be recognized from discounting future cash receipts over the short credit period is not considered to be material. These receivables are reduced by appropriate allowances for estimated irrecoverable amounts. Interest on overdue receivables is recognized as it accrues.

9. Deposit for shares (assets)

Where the company invested in the equities of other entities and the necessary allotment of shares or share certificates have not been received by the company, such investment shall be treated as deposit for shares. At initial recognition, it

would be treated at cost and at subsequent recognition, it would be recognized at cost less impairment (if any).

10. Investment in subsidiaries

Subsidiaries are entities controlled by the parent. In accordance with IAS 10, control exists when the parent has:

- I. Power over the investee
- II. Exposure, or rights, to variable returns from its involvement with the investee; and
- III. The ability to use its power over the investee to affect the amount of investor's returns.

Investments in subsidiaries are reported at cost less impairment (if any).

11. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

12. Intangible assets

Intangible assets acquired separately are shown at historical cost less accumulated amortization and impairment losses. Amortization is charged to profit or loss on a straight-line basis over the estimated useful lives of the intangible asset unless such lives

are indefinite. These charges are included in other expenses in profit or loss. Intangible assets with an indefinite useful life are tested for impairment annually.

Amortization periods and methods are reviewed annually and adjusted if appropriate.

The class of the intangible assets recognised by the company and its amortisation rates are as follows:

Computer software

Rate 15%

13. Property and equipment

13.1 Recognition and Measurement

All property and equipment are stated at historical cost less accumulated depreciation less accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

Buildings	-	2%
Furniture & fittings	-	15%
Computers	-	15%
Motor vehicles	-	20%
Office equipment	-	15%

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment. The assets' residual values and useful lives are reviewed at the end of each reporting period and adjusted if appropriate. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable value.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount, these are included in the income statement in operating income.

The Group reviews the estimated useful lives of property and equipment at the end of each reporting period.

13.2 Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is re-measured to fair value and reclassified as investment property. Any gain arising on re-measurement is recognized in income statement to the extent the gain reverses a previous impairment loss on the specific property, with any remaining gain recognized in other comprehensive income and presented in the revaluation reserve in equity.

Any loss is recognized in other comprehensive income and presented in the revaluation reserve in equity to the extent that an amount had previously been included in the revaluation reserve relating to the specific property, with any remaining loss recognized immediately in income statement.

14. Statutory Deposit

Statutory deposit represents 10% of the paid-up capital of the Company deposited with the Central Bank of Nigeria CBN) in pursuant to Section 10(3) of the Insurance Act, 2003. Statutory deposit is measured at cost.

15. Insurance Contracts Liabilities

In accordance with IFRS 4, the company has continued to apply the accounting policies it applied in accordance with Pre-changeover Nigerian GAAP subject to issue of Liability adequacy test (note14.4).Balances arising from insurance

contracts primarily includes unearned premium, provisions for outstanding claims and adjustment expenses, re-insurers share of provision for unearned premium and outstanding claims and adjustment expenses, deferred acquisition costs, and salvage and subrogation receivables.

15.1 Reserves for unearned premium

In compliance with Section 20 (1) (a) of Insurance Act 2003, the reserve for unearned premium is calculated on a time apportionment basis in respect of the risks accepted during the year.

15.2 Reserves for outstanding claims

The reserve for outstanding claims is maintained at the total amount of outstanding claims incurred and reported plus claims incurred but not reported ("IBNR") as at the balance sheet date. The IBNR is based on the liability adequacy test.

15.3 Reserves for unexpired risk

A provision for additional unexpired risk reserve (AURR) is recognized for an underwriting year where it is envisaged that the estimated cost of claims and expenses would exceed the unearned premium reserve (UPR)".

15.4 Liability adequacy test

At each reporting date, the company performs a liability adequacy test through an Actuary on its insurance contract liabilities less deferred acquisition costs to ensure the carrying amount is adequate, If the estimate shows the carrying amount of liabilities is inadequate, any deficiency is recognized as an expense to the income statement initially by

writing off the deferred acquisition expense and subsequently by recognizing an additional claims liability for claims provisions.

16. Retirement benefits obligations

16.1 Defined contribution plan

The Group runs a defined contribution plan in line with the Pension Reform Act Amended 2014. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. The rate of contribution by the Group and its employee is 10% and 8% respectively of basic salary, housing and transport allowance. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Under the defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expenses when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

17. Deposit for shares (liability)

Where the shareholders deposited for the equity of the entity and the necessary allotment of shares or share certificates have not been issued by the company due to authorization and approval from regulatory bodies, such deposit shall remain a liability until the allotment is done, when the obligation is converted into equity.

18. Share capital

Shares are classified as equity when there is no obligation to transfer cash or other assets. Equity instruments issued are recorded at the value of proceeds received, net of costs directly attributable to the issue of the instruments. Incremental costs directly attributable to the issue of equity instruments are shown in equity as a deduction from the proceeds, net of tax.

19. Share premium

Share premium is the excess amount over the par value of the shares. This is classified as equity when there is no obligation to transfer cash or other assets. The proceeds received are recorded as net of costs. This reserve is not ordinarily available for distribution.

20. Contingency reserve

In compliance with Section 21 (2) of Insurance Act 2003, the contingency reserve is credited with the greater of 3% of total premiums, or 20% of the net profits. This shall accumulate until it reaches the amount of greater of minimum paid-up capital or 50 percent of net premium.

21. Statutory reserve

In line with Central Bank of Nigeria guideline, Finance companies in Nigeria are required to transfer a minimum of 15% of its profit before tax to statutory reserve until the reserve fund equals the Paid-up Capital and a minimum of 10% thereafter. This applies to Grand Treasurers Limited, a subsidiary within the group.

22. Dividend distribution

Dividend distribution to the Group's shareholders is recognized as a deduction in the revenue reserve in the year in which the dividend is approved by the Company's shareholders.

23. Revenue recognition

23.1 Premium

Written premium for non-life (general insurance) business comprises the premiums on contract incepting in the financial year. Written premium are stated at gross of commissions payable to intermediaries. Unearned premiums are those portions of the premium, which relates to periods of risks after the balance sheet date. Unearned premiums are prorated evenly over the term of the insurance policy. The portion of the premium related to the unexpired portion of the policy at the end of the fiscal year is reflected in the unearned premium.

a) Gross premium

Gross premium is recognized at the point of attachment of risk to a policy before deducting cost of reinsurance.

b) Gross premium earned

Gross premium earned is the written premium recognized after adjusting for the unearned portion of the premium.

a) Unearned premium

This is the portion of the gross premium on the insurance contract, determined on a contract by contract basis, which is deemed to be relating to the risk for period not falling within the current accounting year. This is carried forward to the next accounting period as unearned premium.

b) Net premium

Net premium represents gross premium earned less reinsurance costs.

c) Reinsurance premium

Reinsurance premium is the ceding to a reinsurance part of a risk or liability accepted in order to ensure greater and reduced liability on the part of the company. The outward reinsurance premium relating to earned premiums are recognized as outflow in accordance with the reinsurance services received.

23.2 Reinsurer's share of unearned premium

Reinsurer's share of unearned premium is recognized as an asset using principles consistent with the company's method for determining the unearned premium liability.

24. Expenses

a) Reinsurance cost

This represents the outward reinsurance premium paid to reinsurance companies less the unexpired portion as at the end of the current accounting year.

The reinsurance cost is charged to the underwriting revenue account while the unexpired portion is shown as prepaid reinsurance costs, on asset, on the balance sheet.

b) Reinsurance recoveries

Reinsurance recoveries represents that portion of claims paid or payable on risks ceded out to reinsurance companies on which recoveries are received or receivable from the reinsurer.

The recoveries are applied to reduce the gross claims incurred on the underwriting revenue account.

c) Prepaid reinsurance cost

This is the unexpired reinsurance cost determined on a time apportionment basis and is reported under other asset on the balance sheet.

d) Gross claims paid

This is the direct claims payments during the year plus reinsurance claims paid, if any.

e) Gross claims incurred

The is made up of claims and claims handling expenses paid during the financial year after adjusting for the movement it the prevision for outstanding claims and claims incurred but not reported (IBNR).

a) Net claims incurred

This is gross claims incurred after adjusting for reinsurance claims recoveries. All claims paid and incurred are charged against the underwriting revenue account as expense wren Incurred. Reinsurance recoveries are recognized when the company records the liability for the claims.

Anticipated reinsurance recoveries on claims ore disclosed separately as assets.

f) Management expenses

Management expenses are expenses other than claims, investments and underwriting

expenses. They include salaries, depreciation charges and other administrative but non-operating expenses. They are accounted for on or accrual basis and are charged to the profit and loss account in the year in which they were incurred.

Provision for unpaid claims and adjustment expenses

Individual loss estimates are provided on each claims reported. In addition, provisions are made for adjustment expenses, changes in reported claims, and for claims incurred but not reported, based on past experience and business in force. The estimates are regularly reviewed and updated, and any resulting adjustments are included in the current income.

25. Salvage and subrogation recoverable

In the normal course of business, the company obtains ownership of damaged properties, which they resell to various salvage operators. Unsold property is valued at its estimated net realizable value.

Where the company indemnifies policyholders against a liability claim, it acquires the right to subrogate its claims against other parties. These claims are reflected at amounts expected to be received from the subrogated parties net of related costs.

26. Fees and commission income

Fees and commissions consist primarily of reinsurance commission and other contract fees. All other fee and commission income is recognized as services are provided.

27. Investment income

Investment income consists of dividend, interest income. Dividends are recognized only when the group's right to payments is established.

27.1 Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the assets carrying amount.

27.2 Other operating income

Other operating income is made up of rent income, profit on disposal of fixed assets, profit or loss on disposal of investment, exchange gain or loss and other line of income that are not investment income.

27.3 Realized gains and losses

The realized gains or losses on the disposal of an investment is the difference between proceeds received, net of transaction costs and its original or amortized costs as appropriate.

28. Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit (loss), it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the Group controls the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities, and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities, where there is an intention to settle the balances on a net basis.

29. Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

30. Foreign currency translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the reporting date, unsettled monetary assets and liabilities are translated into the Group's functional currency by using the exchange rate in effect at the year-end date.

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at exchange rates of monetary assets and liabilities denominated in currencies other than the group's functional currency are recognized in the consolidated income statement.

31. Unclaimed dividend

Unclaimed dividend are amounts payable to shareholders in respect of dividend previously declared by the Group which have remained unclaimed by the shareholder in compliance with section 385 of the Companies and Allied Matters Act (Cap C20) laws of the Federation of Nigeria 2004. Unclaimed dividends are transferred to general reserves after twelve years.

32. Earnings per share

The Group presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of shares outstanding during the year.

33. Borrowings

These are financial liabilities that mature within 12months of the balance sheet date. Borrowings inclusive of transaction cost are recognize initially at fair value. Borrowings are subsequently stated at amortized cost using the effective interest rate method; any difference between proceeds and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest rate method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

The Company is exposed to financial risk through its financial assets (investments and loans). The key focus of financial risk management for the Company is to ensure that the proceeds from financial assets are sufficient to fund its obligations arising from its insurance operations. The most important components of financial risk (market risk) arises from open positions in interest rate, fluctuations in stock prices, inflation, all of which are exposed to general and specific market movement and/or conditions.Investments above ninety-one (91) days are classified as part of financial assets of the Company. All financial instruments are initially recorded at transaction price. Subsequent to initial recognition, the fair values of financial instruments are measured at fair values that are quoted in an active market. When quoted prices are not available, fair value are determined by using valuation techniques that refer as far as possible to observable market data. These are compared with similar instruments where market observable prices exist.

The Company assesses its reinsurance assets for impairment. If there is objective evidence that the reinsurance assets are impaired, the Company reduces the carrying amount of the reinsurance assets to its recoverable amount and recognizes that impairment loss in the income statement. The Company has a reinsurance agreement with African Reinsurance Corporation, and Continental Reinsurance Plc. Based on the financial position and performance during the period under review, they are solvent and had never defaulted on their obligations. Consequently, there are no indications of impairment as at the reporting date.

Investment Properties

Investment properties are made up of buildings and properties held by the company to earn rentals or for capital appreciation or both and are accounted for in line with International Accounting Standard (IAS) 40. Some of these properties retained the title of one of the legacy companies making up Consolidated Hallmark Insurance Plc. There is no dispute as to the title of Consolidated Hallmark Insurance Plc to these properties. However, in line with NAICOM requirement, provided below is the list of these properties and status of efforts to change their name to Consolidated Hallmark Insurance Plc.

12.1 The company property at Plot 3 Sea Gate Estate valued for =N=56,550,000 as at July 2019 was disposed during the year for =N=95,000,000 net of commission and fees.

S/N	TYPE OF ASSET	ADDRESS	AMOUNT N	CURRENT TITLE HOLDER	STATUS ON CHANGE OF TITLE
	Company				
1	Building	Plot A/5 Pocket Layout (Clerk Quarters) Owerri, Imo State.	206,000,000	Consolidated Hallmark Insurance Plc.	Title over this property has been transferred to Consolidated Hallmark Insurance Plc.

Some fixed assets were professionally re-valued as at 31 December 2006, by Messrs Adegboyega Sanusi & Co.(FRC/2013/NIESV/00000001757) on the basis of open market values. These values were incorporated in the books at that date. The surplus arising on the revaluation over the written down values was treated in the NGAAP financial statements as fixed assets revaluation reserve. However, in compliance with IFRS (i.e. IAS 16) the revalued amount was taken as deemed cost at transition date and the revaluation reserve was transferred to revenue reserve.

In the year ended 31 December 2011, the landed property of CHI Capital Limited were professionally re-valued at N84 million by Messrs Adegboyega Sanusi & Co. Estate Surveyors & Valuers on the basis of open market value between a willing seller and buyer. The sum of N65,495,775 was then recognised as revaluation reserve in the financial statements.

23.1	<i>Issued and fully paid:</i> 8.130 billion ordinary shares of 50k each 31 December	4,065,000,000	4,065,000,000	4,065,000,000	4,065,000,000
	Opening	4,065,000,000	3,000,000,000	4,065,000,000	3,000,000,000
	Addition: Right issue	-	500,000,000	-	500,000,000
	Private placement		565,000,000	-	565,000,000
	Closing	4,065,000,000	4,065,000,000	4,065,000,000	4,065,000,000

The holder of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at meetings of the Group.

24	Share Premium	Group		Company		
		2019	2018	2019	2018	
	Number (units) of shares issued	-	1,130,000,000	-	1,130,000,000	
	Issue price	-	=N=0.65	-	=N=0.65	
	Opening	155,264,167		155,264,167		
	Issue Proceeds (in Naira)	· · · •	734,500,000	-	734,500,000	
	Nominal value	-	(565,000,000)	-	(565,000,000)	
	Issue expenses	-	(14,235,833)	-	(14,235,833)	
	Share Premium	155,264,167	155,264,167	155,264,167	155,264,167	

The share premium arises from the private placement of 1,130,000,000 shares @ the price of 65kobo which is above the nominal value of 50kobo. The excess amount after deducting all charges is stated as share premium

25. Other reserves

2

25.1. Contingency reserve

At 1 January	1,603,720,833	1,400,446,908	1,603,720,833	1,400,446,908
Transfer from income statement (Note 26)	251,578,419	203,273,925	251,578,419	203,273,925
31 December	1,855,299,252	1,603,720,833	1,855,299,252	1,603,720,833

In line with sections 21(1) and (2) and 22(16) of the Insurance Act 2003, Insurance companies in Nigeria are required to transfer to the statutory contingency reserve, the higher of 20% of net profits and 3% of total premium. The current year transfer of =N=251.578.419 is based on 3% of total premium.

25.2 Statutory reserve

At 1 January	27,726,056	16,304,970	-	-
Transfer from income statement (Note 26)	9,137,925	11,421,086	-	-

31 December 36,863,982 27,726,056 - - - - - - In line with Central Bank of Nigeria guideline, Finance companies in Nigeria are required to transfer a minimum of 15% of its profit before tax to statutory reserve until the reserve fund equals the Paid-up Capital and a minimum of 10% thereafter. This applies to Grand Treasurers Limited a subsidiary within the group.

Retained earnings 26. 324,269,968 272,254,237 234,055,695 201,305,100 At 1 January Dividend declared and paid in the year based on (162,600,000) (140,000,000) (162,600,000) (140.000.000) the previous vear published accounts Transfer to contigency reserve (Note 25.1) (251,578,419) (251,578,419) (203,273,925) (203,273,925) Transfer from income statement 600,314,588 406,710,742 586,073,953 376,024,520 (11,421,086) 324,269,968 Transfer to statutory reserve (Note 25.2) (9,137,925) 31 December 501,268,212 405,951,229 234,055,695

Retained earnings are the carried forward recognised income net of expenses plus current period profit attributable to sharehold ers.

26.1.	Profit before taxation
	Profit before taxation is stated after
	charging/crediting:

charging/crediting:				
Depreciation of property and equipment	116,016,964	109,818,684	102,992,929	99,538,115
Auditors' remuneration	8,500,000	8,500,000	6,500,000	6,500,000
Directors' remuneration:				
- Fees	5,850,000	8,500,000	5,850,000	8,500,000
Profit on disposal of property and equipment	(2,417,775)	5,379,597	(2,417,775)	5,379,597
Foreign exchange (gains)/loss	(12,342,581)	(17,768,240)	(12,342,581)	(17,768,240)

The Auditors, Messrs SIAO Partners did not render any other services to the Group besides Auditing services.

40a. Capital commitments

There were no capital commitments as at 31 December 2019.

40b. Contingent liabilities

There no contigent liability against Consolidated Hallmark Insurance as at 31 December 2019.

41. Comparative figures

Where necessary, comparative figures have been adjusted to conform with changes in presentation of the current year in accordance with the International Accounting Standards (IAS 1).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

42. Segment Information

An operating segment is a component of the Group engaged in business activities from which it can earn revenues whose operating results are reviewed regularly by the Group's Executive Management in order to make decisions about resources to be allocated to segments and assessing segments performance. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Group's Executive Management.

The Group is organized into two operating segments, these segments and their respective operations are as follows:

General Insurance Business & HMO: This segment provides cover for indemnifying customers' properties, and compensation for other parties that have suffered damage as a result of customers' accidents. Major sources of revenue in this segment are mainly from insurance premium, investment income, commission received, net fair value gains on financial assets at fair value through profit or loss.

CHI Capital Ltd: This is a subsidiary of Consolidated Hallmark Insurance Plc. The company is registered by CAC to offer consumer leasing and support services to Consolidated Hallmark Insurance Plc (the parent company). In addition, it owns Grand Treasurers Ltd. In 2019, CHI Capital Ltd transferred 100% of its interest in Grand Treasurers Ltd to Consolidated Hallmark Insurance Plc. Grand Treasurers Ltd is registered by CBN to offer wide range financial services and products domestically to suit customer's long- and short-term financial needs. These products include L.P.O financing, Consumer Lease, Working Capital financing, Auto lease, Project financing and intermediation and Financial Management Consultancy Services. Revenue from this segment is derived primarily from interest income, fee income, investment income and net fair value gains on financial assets at fair value through profit and loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

43. Contraventions

The Group or Company did not contravene any regulation during the period under review.

44. Reinsurance treaty

The Company has a reinsurance agreement with African Reinsurance Corporation, Continental Reinsurance Plc and WAICA Reinsurance Corporation Plc to reinsure the risks associated with fire and consequential loss, General accident, Marine cargo, motor, aviation and special risks etc. according to agreed quota share, surplus treaty or excess of loss treaty. This agreement was last modified 31 December 2018.

45. Related party transactions

There are no significant business dealings with its related parties during the period under review. All transactions were at arms length.

Parent:

The Group is controlled by Consolidated Hallmark Insurance Plc. which is the parent company, whose shares are widely held. Consolidated Hallmark Insurance Plc, is a General Business Insurance Company licensed by the National Insurance Commission.

Subsidiaries:

Consolidated Hallmark Insurance PIc holds 99.99% interest in CHI Capital Limited, 100% in CHI Microinsurance Limited and 100% in HMO Service Limited. Transactions between Consolidated Hallmark Insurance PIc and all the subsidiaries are eliminated on consolidation and already disclosed in Note 10.2

Key management personnel:

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group or Company, directly or indirectly, including any director (whether executive or otherwise). It includes close members of their families who may be expected to influence or be influenced by that individual in their dealings with the Group.

The significant related party transaction in the course of the reporting year with the subsidiaries are as stated below;

	Salaries and other benefits of key management personnel	49,074,864	44,700,160	39,408,000	39,408,000

47. Events after the reporting period:

No event or transaction has occurred since the reporting date, which would have had a material effect on the financial statements as at that date or which needs to be mentioned in the financial statement in the interests of fair presentation of the Group's financial position as at the reporting date or its result for the year then ended.

48. Capital management

The Group's objectives with respect to capital management are to maintain a capital base that adequately meets regulatory requirements and to utilize capital allocations efficiently and effectively. Capital levels are determined either based on internal assessment or regulatory requirements.

The Nigerian Insurance Act 2003 stipulates the minimum capital requirement for a non life insurance company as an amount not less than 15% of the gross premium income less reinsurance premiums paid out during the year under review or the minimum paid up capital whichever is greater. The Act defines what constitutes admissible assets liabilities. The regulators generally expect companies to comply with capital adequacy requirements and the Company has consistently exceeded this minimum over the years. The regulator has the authority to request more extensive reporting and can place restrictions on the Company's operations if the Company falls below this requirement as deemed neccesary.

All of the Groups capital is Tier 1 (core capital) which consists of share capital and reserves created by appropriation of retained earnings. The following sources of funds are available to the group to meet its capital growth requirements:

1. Profits from operations: The group had regularly appropriated from its profit to grow its capital.

2. Issue of shares: The Group can successfully access the capital market to raise the desired funds for its operations and needs.

3. Loans (long term/short term): this remains a source of capital even though the group had never had cause to access this source for funding its operations.

Compliance with statutory solvency margin requirement:

The company at the end of financial period ended December 2019 maintained admisible assets of N10,981,641,996 which exceeded the total admissible liabilities of N4,683,743,261. The solvency margin was computed in line with the requirements of Section 24 of the insurance Act 2003, latest NAICOM guidelines. This showed a solvency margin of N3,297,898,735.60 in excess of the minimum requirement of N3billion for General Insurance Business by 109.93%. Thus, the solvency margin above satisfies the requirement of the regulatory requirement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

49. Asset & Liability Management

Asset & Liability Management (ALM) is the practice of managing an insurer's financial position so that actions taken with respect to assets and liabilities are designed to address the broad set of financial risks inherent in their joint behavior.

Asset & Liability Management (ALM) attempts to address financial risks the group is exposed to which includes interest rate risks, foreign currency risks, equity price risks and credit risks. The major financial risk is that in the long run its investment proceeds are not sufficient to fund the obligations arising from its insurance contracts.

ALM ensures that specific assets of the group is allocated to cover reinsurance and other liabilities of the group.

The following tables reconcile the consolidated balance sheet to the classes and portfolios used in the Group's ALM framework.

Company 2018

50. Fair Value Hierarchy

IFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable Observable input reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions.

The determination of fair value for each class of financial instruments was based on the particular characteristics of the instruments. Group's accounting policy on fair value measurements is discussed under the statement of significant accounting policies.

Level 1: Fair value measurements classified as Level 1 include exchange-traded prices of fixed maturities and equity securities unadjusted in active market for identical assets and liabilities.

Level 2: valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data. Observable inputs generally used to measure the fair value of securities classified as Level 2 include benchmark yields, reported secondary trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers and reference data.

Level 3: This includes financial instruments, the valuation of which incorporate significant inputs for the asset or liability that is not based on observable market data (unobservable inputs). Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. These inputs are generally determined based on inputs of a similar nature, historic observations on the level of the input or analytical techniques.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorized:

50. Management of Insurance and Financial risks

Risk Management Framework:

Consolidated Hallmark Insurance PIc has a robust and functional Risk Management System that is responsible for identifying and managing the inherent and residual risks facing the Group. As an insurance company, the management of risk is at the core of the operating structure of Consolidated Hallmark Insurance PIc. As a result, the best risk management practices are deployed to identify, measure, monitor, control and report every material risk prevalent in the business operation.

The Company's Risk Management System is in line with the guidelines as approved by the insurance industry regulator, National Insurance Commission (NAICOM), to identify, assess, manage and monitor the risks inherent in the operations. The risk structure includes our approach to management of risks inherent in the business and the appetite for these risk exposures. Under this approach, we continuously assess the Company's top risks and monitor the risk profile against approved limits. The main strategies for managing and mitigating risk include policies and tools that target specific broad risk categories.

The Company is guided by the following principles to ensure effective integration and to maximize value to stakeholders through an approach that balances the risk and reward in the business. The Company only accepts risks that fall within its risk acceptance criteria and have commensurate returns and continually review its activities to determine inherent risks level and adopt appropriate risk response at all times. It involves broad setting of strategy, risk appetite, performance measurement, establishment and maintenance of internal control and risk management in the business. In addition, business units have the primary responsibility for managing risks and are required to take responsibility for the identification, assessment, management, monitoring and reporting of risks arising within their respective businesses, thereby ensuring an informed risk and reward balance.

The Board sets the organization's risk appetite, approves the strategy for managing risk and is ultimately responsible for the organization's system of internal control. The Board carries out these function by setting Finance and General purpose Committee (FGPC), Board Audit and Risk Management Committee (BARM), Establishment and Governance Committee and Investment Committee. The Board Audit and Risk Management Committee performs the oversight functions of the external auditor and regulatory compliance. It also monitors the internal control process and oversight of enterprise risk management. Finance and General Purpose Committee of the Board functions on oversight of financial reporting and accounting. The Investment Committe reviews and approves the company's investment policy, and approves investment over and above managements' approval limit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Management is responsible and accountable for ensuring that Risk management policies, framework and procedures are complied with; and Also that the risk profiled for areas under their control are refreshed and updated on a timely basis to enable the collation, analysis and reporting of risks to the Board Committees. Management also ensures that explanations are provided to the Board Committees for any major gaps in the risk profiled and any significant delays in planned treatments for high risk priority matters.

The internal audit function that provides independent and objective assurance of the effectiveness of the Company's systems of internal control is established by the organization in the management of enterprise risks across the organization. The internal audit functions evaluate the design and conceptual soundness of risk measures, accuracy of risk models, soundness of elements of the risk management information systems, adequacy and effectiveness of the procedures for monitoring risk, the progress of plans to upgrade risk management systems, the adequacy and effectiveness of application controls within the risk management information system, and the reliability of the vetting processes.

The Chief Risk Officer (a member of the Management) is responsible for the risk policies, risk methodologies and risk infrastructure. The Chief Risk Office (CRO) informs the Board, as well as the Management about the risk profile of the Company and also communicates the views of the Board and Senior Management down the Company. The CRO is also responsible for independently monitoring the broad risk limits set by the Board throughout the year.

a) Insurance Risk Management

The principal risk the Group faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Group is to ensure that sufficient reserves are available to cover these liabilities.

Frequency and severity of claims can be affected by several factors. The most significant are the increasing level of damages suffered as a result of road accidents. The Group manages these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling. The Group has the right to reject the payment of a fraudulent claim, and is entitled to pursue third parties for paymentof some or all costs.

The above risk exposure is mitigated by diversification across a large portfolio of insurance. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

The Group also has special claims unit that ensures mitigation of the risks surrounding all known claims. This unit investigates and adjusts all claims in conjunction with appointed loss adjusters. The Group actively manages and pursues early settlements of claims to reduce its exposure to unpredictable development.

The Group purchases reinsurance as part of its risks mitigation program. Retention limits for the excess-ofloss reinsurance vary by product line.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policy holders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements.

The Group writes insurance primarily over a twelve month duration. The most significant risks arise through high severity, low frequency events such as natural disasters or catastrophes. A concentration of risk may arise from insurance contracts issued in a specific geographic location since all insurance contracts are written in Nigeria.

The Group manages this risk via its underwriting and reinsurance strategy within an overall risk management framework. Exposures are limited by having documented underwriting limits and criteria. Pricing of property and liability policies are based on assumptions in regard to trends and past experience, in an attempt to correctly match policy revenue with exposed risk. Reinsurance is purchased to mitigate the effect of the potential loss to the Company. Reinsurance is placed with African Reinsurance Corporation, WAICA Reinsurance Corporation Plc and Continental Reinsurance Plc, these are Nigerian registered reinsurer.

a(i) Insurance risk associated with uncertainty in the estimation of future claim payments

Claims insurance contracts are payable on a claims-occurrence basis. The Company is liable for all insured events that occurred during the term of the contract. There are several variables that affect the amount and timing of cash flows from these contracts. These mainly relate to the inherent risks of the business activities carried out by individual contract holders and the risk management procedures they adopted. The Company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. Although, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established. Certains reserves are held for these contracts which are provision for IBNR, a provision for reported claims not yet paid and a provision for uncared premium at the end of the reporting period.

In deciding the assumption used, the Company uses different methods to incorporate the various assumptions made in order to estimate the ultimate cost of claims. The two methods used are the Basic Chain Ladder and the Loss Ratio methods adjusted for assumed experience to date.

Claims paid data were grouped into classes of business and Large claims were projected separately as they can significantly distort patterns. The Company also ensure prompt payment of claims as it's the main purpose of the business and also to avoid possible reputational risk.

The Basic Chain Ladder method was adopted in the calculations. Historical claims paid are grouped into years cohorts representing when they were paid after their underwriting year. These cohorts are called claim development years.

The historical paid losses are projected to their ultimate values for each underwriting year. This is done by projecting the latest paid losses in the BCL method, loss development factors (LDF) were calculated for each development year, and also the Ultimate claims are then derived using the LDF and the latest paid historical claims.

Executive Summary

Recommendation

Following the completion of the reserving exercise, it is EY's recommendation that the following Gross Incurred But Not Reported ("IBNR") Reserve be held. This analysis relies on information and reasonability checks as provided by Consolidated Hallmark Insurance PIc.

We have calculated the IBNR reserve for each class of business and summarise our results below .The IBNR reserve is shown as a percentage of Gross Earned Premium ("GEP").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Class of Business	Gross Earned	Gross IBNR	Percentage of
Class of Business	Premium	N	GEP
31 December,2019	8,077,895,958	1,116,516,320	14%
31 December,2018	6,481,636,218	692,845,533	11%

The Gross IBNR decreased by 13% from last year to a total of N848.65million. This decrease is supported by a 3% decline in Gross Earned Premium from 2016 to 2017.

On a Net Basis it is recommended that the following Net IBNR reserve be held. The comparable figures as at the last valuation are included. The IBNR reserve is shown as the percentage of Net Earned Premium ("NEP") in the table below.

Class of Business	Net Earned Premium N	Net IBNR	Percentage of NEP N
31 December,2019	4,720,359,956	522,400,667	11%
31 December,2018	4,242,214,878	392,326,836	11%

Results summary

We estimate that the total Gross Technical Liability is N3.92 billion, comprising N1.74 billion for Gross Claims Reserves and N2.18 billion for Unearned Premium Reserve. Similarly, we estimate that the total Reinsurance Asset is N1.86 billion comprising N836.1 million for Reinsurance Recoveries and N1025.7 million for Reinsurance UPR including a detailed breakdown by line of business are shown below:

Reserves	Gross	Reinsurance	Net
INCSCIVES	(N)	Assets (N)	(N)
Claims	1,742,001,381	(836,102,438)	905,898,943
UPR	2,181,825,507	(1,025,729,471)	1,116,516,320
Total	3,923,826,888	(1,861,831,909)	2,022,415,263
31 December,2018	3,741,068,043	(1,603,819,225)	1,475,520,132

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Additional Unexpired Risk Reserve (AURR)

We derived our expense ratio as the management expense ratio for the current year using the information provided by Consolidated Hallmark Insurance Plc. The current expense ratio was calculated to be about 40%. We do not have breakdown of management expenses by line of business and hence expense ratio has been estimated on a pooled basis and not per line of business.

The Claims Ratio was estimated as the average of the projected ultimate loss ratio in the last three years.

We have illustrated the combined ratio for each line of business with a maximum combined ratio of 97% for Fire in the table below. The resulting AURR as at the valuation date is Nil due to lower than 100% combined ratio for all the lines of business.

Class of Business	Claims Ratio	Combined Ratio	AURR N
General Accident	39%	74%	-
Engineering	22%	56%	-
Fire	56%	91%	-
Marine	33%	68%	-
Motor	38%	73%	-
Aviation	50%	85%	-
Bond	22%	56%	-
Oil & Gas	38%	73%	-
Total			

Table 6.6: Loss Ratio Table

Valuation Methodology

We describe in this section the methods used for calculating Premium and Claim Reserves.

The Premium Reserves

Our reserves consist of Unearned Premium Reserve ("UPR"), Unexpired Risk Reserve ("URR") and Additional Unexpired Risk Reserve ("AURR"), which are all described in section 3.

We adopted the 365th (time apportionment) method.Each policy's unexpired insurance period **(UP)** was calculated as the exact number of days of insurance cover available after the valuation date.The UPR is calculated as the premium *(UP)/ full policy duration.

Each policy's URR =UP*Assumed loss Ratio.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Typically, the Unearned Risk Reserve is expected to cover the unexpired risk. Where the unexpired risk exceeds the unearned premium we have held, an additional reserve called Additional Unexpired Risk Reserve (AURR) as described in section 3.

The Claims Reserves

The claim reserves is the sum of:

Reserving method

To ensure the estimates calculated are not biased by the underlying assumptions of the model chosen, four different deterministic methods were considered ;

Chain Ladder Method (BCL) Loss Ratio Method Bornhuetter-Ferguson Method Frequency and Severity Method Stochastic Reserving Method (Bootstrap)

In estimating the Gross Claim Reserves under the Chainladder method, we used four(4) approaches namely:

The following section describes each of these approches under the chainladder method in turn;

The Basic Chain Ladder Method (BCL)

The Basic Chain Ladder method forms the basis to the deterministic reserving methods explained below. For each class of business, historical paid claims were grouped into accident year cohorts–representing when they were paid after their accident year. These cohorts form the development triangles.

Each accident years, paid claims were accumulated to the valuation date and projected into the future to attain the expected ultimate claim arising in the year. This assumes the trends observed in the historical data will continue. The gross claim reserve is calculated as the difference between the cumulated paid claims and the estimated ultimate claims.

For the later years where the cohorts are underdeveloped or has less than expected claims, the Bornheutter Ferguson (BF) method was used to estimate the ultimate claims. The appropriate loss ratio used in estimating the BF ultimate claim was the average of fully developed historical years.

The Inflation Adjusted Basic Chain Ladder Method (IABCL):

Under this method, the historical paid losses were adjusted to allow for inflation to the valuation date using the corresponding inflation index in each of the accident years.

The inflation adjusted claims were then treated similarly to the Basic Chain Ladder described above. The projected incremental paid claims are then inflated based on our future inflation assumption to the expected future payment date.

Discounted BCL and IABCL

This is the discounted form of the BCL and IABCL. In determining the value, the future expected cash flow for claim payments is discounted to present day terms using our assumed discount rate.

Loss Ratio Method

In 2018, reserves derived using ELR method were discounted assuming a development pattern. The available information is not sufficient to justify the assumed development pattern, hence we did not allow for discounting in 2019.

Bornhuetter-Ferguson Method

This method essentially combines the estimates attained from the above two methods. The BF method takes a weighted average of the two estimates, where the weights are related to the number of claims already reported. Therefore, the more past information there is available, the higher the weighting given to the chain ladder estimate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

Frequency and Severity Method

This method investigates the trend of the claim frequency and average cost per claim for each accident year. An Average of the fully run off accident years was used as a guide on the ultimate claim frequency and ultimate average cost which was then adopted for the accident years that are not fully run off.

Large Losses

Large losses distorting the claims payment trend was excluded from all our chain ladder projections and analyzed separately using the Average Cost per claim method. This is illustrated in Appendix 1.

We have adopted the official inflation indices below in our calculations:

		Comment on
Class of Business	Large Loss	Derivation
Motor	10,000,000	10m assumed
General Accident	10,000,000	10m assumed
Engineering	10,000,000	10m assumed
Fire	27,340,640	Mean + 3SD
Marine	15,742,698	Mean + 3SD
Aviation	N/A	Not Applicable
Bond	N/A	Not Applicable
Oil & Gas	N/A	Not Applicable

Stochastic Reserving Method (Bootstrap)

This method is a further extension of the chain ladder method. It provides a distribution of possible result rather than producing a single deterministic estimate. The approach starts with calculating the age-to-age ratios of loss development table. Unlike the chain ladder, the method takes randomly from the age-to-age ratios with replacement to produce a reserve estimate. Simulating this step 10,000 times results in a selection of 10,000 loss development factors and each time it makes a selection, it computes our estimated gross claim reserve. Running this 10,000 times therefore results in 10,000 possible estimated claim estimates. The final results is then a statistics (a mean or percentile) of the distribution. We at least recommend the mean of the gross claim reserve as our best estimate and the difference between 90, 95 or 99.5 percentile and our mean will serve as the capital required to cover any reserving risk.

Net of Reinsurance Claim reserves

Reinsurance recoveries were calculated using the same methodology as the gross reserves. However, the reinsurance recoveries for Aviation line of business was based on recovery rate approach due to significant changes to Aviation treaty programme in 2016. About 1% of the portfolio was based on excess of loss arrangement and the remaining 99% was based on 99.94% quota share. For the excess of loss component, we derived our recovery rate assumption as average of reinsurance share to gross outstanding reported claims for 2016 and 2017. This ratio was applied to 2017 gross claims reserve to determine the reinsurance recovery.

Valuation Results

We summarise 4 sets of results in this section under the following methods: § Basic Chain Ladder– with claims discounted and undiscounted

Basic Chain Ladder – Result Table

We present Gross claims technical reserves under Basic Chain Ladder,

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

- a(vi) Expected Loss Ratio Method: This model was adopted because the volume of data available is too small to be relied upon when using a statistical approach. The reserve for oil & Gas, Bond, Aviation and Engineering was estimated based on this method. Under this method, we obtained the ultimate claims by assuming loss ratio. Paid claims already emerged is then allowed for from the estimated Ultimate claim.

b) Sensitivity analysis:- Claims Sensitivity analysis attempts to estimate likely amount of reserves at rare/worst case scenarios. The estimated claim amounts can bensitivity analysis attempts to examine a more and an adverse table more than a second to the examination of the examined and the examination of the examined and the examination of the examined and the examine

Sensitivity Analysis - Claims:		
	2019(M)	2018(M)
Gross Premium Earned	8,078	6,482
Reinsurance cost	3,358	2,239
Gross Claim incurred	3,316	4,770
Claims ratio	41%	74%
5% increase in claims	3,482	5,009
Claims ratio	43%	77%
5% reduction in claims	3,150	4,532
Claims ratio	39%	70%
РВТ	667	460
5% increase in claims	(166)	(239)
РВТ	502	221
SHF	6,482	6,058
5% increase in claims	(166)	(239)
SHF	6,316	5,820

A 5% increase or decrease in general Gross Claim experience translates to less than 10% impact on the operating performance of the group. The possibility of a 5% decline in claims experience is considered a rare occurence.

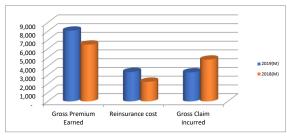

Figure 1 : Gross Premium earned vs Reinsurance Cost vs Gross Claim incured. (2019 & 2018)

c) Risk Concentration

Management assesses risk concentration per class of business. The concentration of insurance risk before and after reinsurance by class in relation to the type of insurance risk accepted is summarized below, with reference to the amount of gross and net premium earned before and after reinsurance respectively:

Year ended 31st December. 2019

Product	Gross Premium Earned (M)	Reinsurance Cost (M)	Net Premium Earned(M)
Fire	1,159	723	435

d. Financial Risks Management (FRM)

Risk Classification: Most financial risk can be categorized as either systematic or non-systematic. Systematic risk affects an entire economy and all of the businesses within it; an example of systematic risk would be losses due to a recession. Non-systematic risks are those that vary between companies or industries; these risks can be avoided completely through careful planning. There are several types of systematic risk. Interest risk is the risk that changing interest rates will make your current investment's rate look unfavorable. Inflation risk is the risk that inflation will increase, making your current investment's returm smaller in relation. Liquidity risk is associated with "tying up" your money in long-term assets that cannot be sold easily. There are also different types of non-systematic risk. Interest risk is the risk that damagement decisions will hurt a company in which you're invested. Credit risk is the risk that a debt instrument issuer (such as a bond issuer) will default on their repayments to you. Consolidated Hallmark Insurance PIc is exposed to an array of risks through its operations. the Company has identified and categorized its exposure to these broad risks listed below: Market Risk, Credit Risk, Operational Risk, Liquidity Risk, Interest Rate Risk, Reputaional Risk, Foreign Currency Risk, Equity risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

d(i) Financial risk is an umbrella term for multiple types of risk associated with financing, including financial transactions that include group loans in risk of default. Financial risk is one of the high-priority risk types for every business. Financial risk is caused due to market movements and market movements can include host of factors. Based on this, financial risk can be classified into various types such as Market Risk, Credit Risk, Liquidity Risk, Operational Risk and Legal Risk. The Group has exposure to the following risks and their management approach are disclosed in the accompanying explanatory notes:

d(ii) Operational risks

Operational risks are the risks of direct or indirect loss arising from a wide variety of causes associated with the company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the company's operations.

The Company's objective is to manage operational risks so as to balance the avoidance of financial losses and damage to the company's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each unit. This responsibility is supported by the development of operational standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including independent authorisation of
 requirements for the reconciliation and monitoring of transactions.
- compliance with regulatory and other legal requirements.

documentation of controls and procedures.

- training and professional development.
- ethical and business standards.

- adequate insurance and reinsurance protection purchased

Reinsurance is placed with African Reinsurance Corporation, WAICA Reinsurance Corporation Plc and Continental Reinsurance Plc, these are Nigerian registered reinsurer. Management monitors the creditworthiness of the Reinsurers by reviewing their annual financial statements and through ongoing communications. Reinsurance treaties are reviewed annually by management prior to renewal of the reinsurance contract.

d(iii) Credit risks

Credit risk is the risk of financial loss to the Group if a debtor fails to make payments of interest and principal when due. The Group is exposed to this risk relating to its debt holdings in its investment portfolio and the reliance on reinsurers to make payment when certain loss conditions are met.

Sources of credit risk identified are Direct Default Risk that the Group will not receive the cash flows or assets to which it is entitled because a party with which the firm has a bilateral contract defaults on one or more obligations. Downgrade Risk that changes the possibility of future default by an obligor will adversely present value of the contract with the obligor today and Settlement risk arising from lag between the value and settlement dates of transactions. All these risks are closely monitored and measures are put in place to minimise the Groups exposure to them.

On insurance receivables, the Group has a credit control policy which is enforced by a credit control unit and which forms part of the underwriting process. In addition, the Maximum exposure to credit risk before collateral held or other credit enhancements:

d(iv) Liquidity risks

Liquidity risk is the risk that the Group will not be able to meet all cash outflow obligations as they come due. The Group mitigates this risk by monitoring cash activities and expected outflows. The Group's current liabilities arise as claims are made. The Group does not have material liabilities that can be called unexpectedly at the demand of a lender or client. It has no material commitments for capital expenditures and there is no need for such expenditures in the normal course of business. Claim payments are funded by current operating cash flow including investment income. Short-term investments include treasury bills, commercial paper and term deposits with an original maturity of less than one year. There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

d(v) Equity risk

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Group is exposed to this risk through its equity holdings within its investment portfolio. The Group's management of equity price risk is guided by Investment Quality and Limit Analysis, Stop Loss Limit Analysis and Stock to Total Loss Limit Analysis.

d(vi) Currency risks

Currency risks are the risks that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign exchange risk (also known as exchange rate risk or currency risk) is a financial risk posed by an exposure to unanticipated changes in the exchange rate between two currencies. Investors and multinational businesses exporting or importing goods and services or making foreign investments throughout the global economy are faced with an exchange rate risk which can have severe financial consequences if not managed appropriately.

The Group's principal transactions are carried out in Naira and its financial assets are primarily denominated in the Naira and its exposure to foreign exchange risk is minimal.

d(vii) Business Risks

Business risk relates to the potential erosion of our market position or revenue shortfall compared to the cost base due to strategic and/or reputational reasons. The corporate governacnce structure of the group is effective. Each level of leadership has limits of authority and approval to ensure business decisions are properly considered, relevant risks exposures evaluated and necessary measures implemented to mitigate such risks.

The Group holds regular strategic sessions both at the Board, Management and Operational Unit basis to review the corporate and the unit strategies and ensure the group market share is effectively defended against competition.

d(viii) Reputational Risks

Reputational risk, often called reputation risk, is a type of risk related to the trustworthiness of business. Damage to a firm's reputation can result in lost revenue or destruction of shareholder value, even if the company is not found guilty of a crime. Reputational risk can be a matter of corporate trust, but serves also as a tool in crisis prevention. This type of risk can be informational in nature or even financial. Extreme cases may even lead to bankruptcy.

The composition of the Board and leadership of the group are made up of reputable and experienced practitioners. The group also holds it core values of Professionalism, Relationship, Integrity, Zeal and Excellence (PRIZE) which is regularly communicated to every member and compliance monitored on an ongoing basis.
